## Strongest Reserve Standard Greatest Security to Policy-Holders

The new Policies of the Sovereign Life Assurance Company of Canada are the most scientific, equitable and liberal contracts written. For conciseness and simplicity of form, and for adaptability and liberality in all essentials, they are unsurpassed. The holder of one of these Policies is **GUARANTEED** a larger amount than the holder of a policy in any other company in Canada. The premium rates of the Sovereign Life are exceedingly low, and are still further reduced by **ANNUAL DIVIDENDS.** Agents desiring to represent the **best Company for the policy-holder** can establish themselves in a profitable business with the certainty of an increasing income as the years go by. Choice territory now open for local and district agents. Men of character and ability can secure permanent employment.

## Explanation of the Articles in the Calendar.

Standard times\* are given in all columns headed Toronto, Quebec, and Winnipeg.

The times\* of the SUN'S RISING AND SETTING† are given for the upper limb, and are corrected for refraction for Toronto, Quebec and Winnipeg.

The standard times\* both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec and Winnipeg.

The column, SUN ON MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time\* at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian twice on October 14th.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The column, Sidereal Time Sun on Meridian, shows for every day the Sidereal Time when the TRUE SUN'S centre is on the meridian of longitude 4h. 46m. W. (71° 30'). For any other meridian interpolation of these quantities is necessary. For example, on Sept. 7th, 1910, what is the sidereal time when the Sun's centre is on the 82nd meridian west longitude. Here the difference in longitude is 10°.5. The tabulated sidereal time on the 7th is 11h. 1m. 40s., and on the 8th, 11h. 5m. 16s., giving an increase of 216 secs. which, multiplied by 10.5 and divided by 360, gives 6 secs. corr. to be added to 11h. 1m. 40 secs.

GREATEST ELONGATION OF THE POLE STAR.—This table gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 42°, with the corresponding corrections, which are additive, for latitudes up to 65°. (See pages 33 and 34.)

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table. These constants are calculated for declination 88° 49' 45". The maximum error in the use of this Table will not exceed 5 secs. in the higher latitudes, and proportionately less for the lower latitudes.

MOON'S PHASES.—This Table gives the times (standard 75th meridian)\* when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

\* In the present Almanac the hours are numbered from 0 (midnight) to 23.

† Although these times are calculated for Toronto, Quebec and Winnipeg only, the standard times at other places not differing much from them in latitude may be obtained with sufficient accuracy for ordinary purposes by adding four minutes for every degree west, and subtracting four minutes for every degree east of these places.

## STAR TABLE.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following table, the approximate times of the culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, add the number in the left-hand column of figures to the meridian transit of the pole star given in the calendar, and from the result subtract the constant quantity 1h. 26m.

To find the time of rising of the star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting, add the same number to the time of its meridian passage. Those stars marked (...) revolve in

a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

*Example.*—Find the times of culmination, rising and setting of a Tauri (Aldebaran), January 2nd, 1910.

## ECLIPSES IN 1910.

(F. L. BLAKE.)

In the year 1910 there will be four eclipses, two of the Sun and two of the Moon.

I.—A Total Eclipse of the Sun, May 9th, 1910, invisible in America and visible in Australia as a partial eclipse, the line of central eclipse occurring south of Australia.

II.—A Total Eclipse of the Moon, visible generally in America May 23rd, 1910. The following is the Eastern Standard Time of the different phases:—

Moon enters shadow..... May 23rd..... 10h. 46m. p.m.  
 Total eclipse begins..... " 24th..... 0h. 9m. a.m.  
 Middle of Eclipse..... " 24th..... 0h. 34m. "  
 Total eclipse ends..... " ..... 1h. 0m. "  
 Moon leaves shadow..... " ..... 2h. 22m. "  
 Magnitude of eclipse=1.099 (Moon's diameter=1).

III.—A Partial Eclipse of the Sun Nov. 1st, 1910, invisible in America, magnitude of greatest being 0.852 (Sun's diameter=1.0), visible generally in Alaska, North Pacific Ocean and North Eastern Asia.

IV.—A Total Eclipse of the Moon, Nov. 16th, 1910. The following is the Eastern Standard Time of the different phases:—

Moon enters shadow..... Nov. 16th..... 5h. 44m. p.m.  
 Total eclipse begins..... " ..... 6h. 55m. "  
 Middle of eclipse..... " ..... 7h. 21m. "

 Moon leaves shadow..... " ..... 8h. 58m. "  
 Magnitude of eclipse=1.131 (Moon's diameter=1).

## HALLEY'S COMET, 1910.

During 1910 Halley's Comet will return to perihelion. In January and February it will set after the sun, and on March 23rd it will pass about 6 degrees north of the sun, thus being lost in its rays. It is somewhat doubtful whether it will be visible to the naked eye until it emerges from the vicinity of the sun, when by April the 20th it would rise two hours before the sun, and would be rapidly getting brighter as it would be near its perihelion and fast approaching the earth and distant about 94,000,000 miles. On the 8th May its distant will be 34,000,000 miles. On the 14th it would rise more than an hour before the sun, and should be a conspicuous object in the morning twilight. So quick would be the comet's motion about that time that by midnight of the 18th it would be nearly two hours east of the sun, about midway between the stars  $\beta$  Tauri and  $\beta$  Orionis (Rigel). On that day it would make its nearest approach to the earth, being 12,500,000 miles away. The tail would extend across the southern part of Gemini, and should be a splendid object.

The Moon during 1910 will be at its farthest North and South limits on the following dates:—

The correction for an increase of altitude of one inch in the barometer or for a decrease of one degree in the thermometer, is to be added to the *tabular refraction*, but when the barometer is lower than 30 inches, or the thermometer higher than 47°, the corrections become *subtractive*. When great accuracy is required, 0.003 inch should be deducted from the observed height of the barometer for each degree that the thermometer near it is above 50°, and the same quantity added for an equal decrease.

# TIDE TABLES FOR HALIFAX, QUEBEC, AND ST. JOHN, N.B., 1910

These Tide Tables, with Tidal Differences for other places, are issued by the Tidal and Current Survey, in the Department of Marine and Fisheries. They are based upon observations obtained by means of self-registering tide gauges, kept in continuous operation throughout the year. The records are reduced by the latest methods of analysis, and the computation of the tables is made in the Nautical Almanac office, London.

The Tide Tables are based upon the analysis of the following tidal record:—Halifax, upon record obtained during the years 1851, 1852, 1860 and 1861, together with nine complete years between October 1895 and July 1906. Quebec, upon ten complete years, between November 1893, and July 1904. Father Point, upon nine complete years, between January 1897 and October 1907. St. John, N.B., upon ten complete years, between April 1894 and June 1905.

WM. P. ANDERSON,  
Chief Engineer.

W. BELL DAWSON,  
Superintendent.

NOTE.—Tide Tables are also calculated and issued by the Tidal and Current Survey, for the following ports:—Charlottetown, Pictou, and St. Paul Island, with tidal differences for Northumberland Strait, etc. Cap à la Roche and Beaujeu channel, above and below Quebec.—These are at present the shallowest points at low water, until the deepening of the ship channel to Montreal is completed throughout.

Victoria, Vancouver, Prince Rupert and Port Simpson; with full tidal information for British Columbia.

INVESTIGATION OF CURRENTS.—The currents in the Gulf of St. Lawrence, Belle Isle Strait, the Bay of Fundy, and off the coast of Newfoundland, are also being investigated by the Tidal and Current Survey. The results are published as pamphlets, which may be had on application to the Department of Marine and Fisheries, Ottawa.

## LEGAL WEIGHTS AND MEASURES IN CANADA.

The legal weights and measures of Canada are the Imperial yard, Imperial pound avoirdupois, Imperial gallon (of 277.27384 cubic inches), and the Imperial bushel. The Imperial gallon is equal to 4.54174 litres, while the wine gallon, used in the United States, is equal to 3.785 litres.

By Sec. 337 of Chap. 85 of Revised Statutes of Canada, 1906, it is provided: That in contracts for sale and delivery of any of the undermentioned articles, the bushel should be determined by weighing, unless a bushel by measure be specially agreed upon, the weight equivalent to a bushel being as follows:—

Wheat, 60 lbs. Indian Corn, 56 lbs. Rye, 56 lbs. Pease, 60 lbs. Barley, 48 lbs. Malt, 36 lbs. Oats, 34 lbs. Beans, 60 lbs. Flax seed, 56 lbs. Hemp, 44 lbs. Blue grass seed, 14 lbs. Lime, 70 lbs. Castor beans, 40 lbs.

Potatoes, 60 lbs. Turnips, 60 lbs. Carrots, 60 lbs. Parsnips, 60 lbs. Beets, 60 lbs. Onions, 50 lbs. Bituminous coal, 70 lbs. Clover seed, 60 lbs. Timothy, 48 lbs. Buckwheat, 48 lbs.

By Sec. 19, Chap. 52 of the Revised Statutes of Canada, 1906, the British hundredweight of 112 pounds, and the ton of 2,240 pounds were abolished, and the hundredweight was declared to be 100 pounds, and the ton 2,000 pounds avoirdupois, thus assimilating the weights of Canada and the United States.

By recent Acts it is ordered that for apples the barrel shall be 96 quarts. Size, length, 26½ inches between head (inside measure); diameter (head) 17 inches; middle diameter, 18½ inches. Boxes, 11 x 10 x 20 inches containing 2,200 cubic inches.

## SQUARE, SURFACE, OR LAND MEASURE.

The square foot contains 144 square inches.  
Yard = 9 feet = 1,296 inches.  
Rod, pole, or perch = 30½ yards = 272½ feet.  
Chain = 16 rods = 484 yards = 4,356 feet.  
Rood = 40 yards = 1,210 yards = 10,890 feet.  
Acre = 4 roods = 160 rods = 4,840 yards.  
Mile = 640 acres = 2,560 roods = 6,400 chains = 102,400 rods, poles, or perches, or 3,007,600 square yards.  
An acre roughly sited has four equal sides of 66½ yards; accurate measurement gives each side 208.71 feet.  
The sides of a square half-acre would be 147.581 feet, and of a square quarter-acre 104.355 feet.

## MEASURES OF TIME.

60 seconds = 1 minute.	28, 29, 30, or 31 days = 1 calendar month.
60 minutes = 1 hour.	12 calendar months = 1 year.

7 days = 1 week.	365d. 5h. 48m. 46s. = 1 tropical year.
28 days = 1 lunar month.	cal year.

The astronomical day commences at noon, and is computed from 1 to 24 hours.

In 400 years 97 are leap years and 303 common, leap year being omitted every 100 year, but not omitted every 400th. (1900 was not a leap year.)

## ANGULAR MEASURE.

60 seconds" = 1 minute.	90 degrees" = 1 quadrant.
60 minutes" = 1 degree.	4 quadrants, or 360" = 1 circumference or circle.
30 degrees" = 1 sign.	

The earth rotates at a velocity of 15 degrees an hour (about 17,366 miles a minute at the equator); 1° is therefore about 4 minutes.

## CIRCULAR MEASURE.

Diameter of a circle × 3.1416 gives circumference.  
Diameter squared × .7854 gives area of circle.  
Diameter squared × 3.1416 gives surface of sphere.  
Diameter cubed × .5236 gives solidity of sphere.  
One degree of circumference × 57.3 gives radius.  
Diameter of cylinder × 3.1416, and product by its length, gives the surface.  
Diameter squared × .7854, and product by the length, gives solid contents.

A circular arc is 235.504 feet, a circular rod 117.752 feet in diameter. The circumference of the globe is about 24,855 miles, and the diameter about 7,900 miles.

## ELECTRICAL MEASURES.

6. In the case of articles exported to Canada of a class or kind made in Canada, if the export or actual selling price to an importer in Canada be less than the fair market value of the same article when sold for home consumption in the usual and ordinary course in the country whence exported to Canada at the time of its exportation to Canada there shall, in addition to the duties

otherwise established, be levied, collected and paid on such article, on its importation into Canada, a special duty (or dumping duty) equal to the difference between the said selling price of the article for export and the said fair market value thereof for home consumption;

Provided that the said special duty shall not exceed fifteen per cent. ad valorem in any case;

Provided also that the following goods shall be exempt from such special duty, viz.:

(2) That the expression "export price" or "selling price" in this section shall be held to mean and include the exporter's price for the goods, exclusive of all charges thereon after their shipment from the place whence exported directly to Canada.

(3) That if at any time it appears to the satisfaction of the Governor-in-Council, on a report from the Minister of Customs, that the payment of the special duty by this section provided for is being evaded by the shipment of goods on consignment without sale prior to such shipment, the Governor-in-Council may in any case or class of cases authorize such action as is deemed necessary to collect on such goods or any of them the same special duty as if the goods had been sold to an importer in Canada prior to their shipment to Canada.

(4) If the full amount of any special duty of customs is not paid on goods imported, the customs entry thereof shall be amended and the deficiency paid upon the demand of the Collector of Customs.

(5) The Minister of Customs may make such regulations as are deemed necessary for carrying out the provisions of this section and for the enforcement thereof.

#### COMBINE CLAUSE

12. Whenever from or as a result of a judgment of the Supreme Court, or Exchequer Court of Canada, or of any superior court, or circuit, district, or county court in Canada, it appears to the satisfaction of the Governor-in-Council, that with regard to any article of commerce there exists any conspiracy, combination, agreement or arrangement of any kind among manufacturers of such articles or dealers therein to unduly promote the advantage of the manufacturers or dealers at the expense of the consumers, the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

(2) Whenever the Governor-in-Council deems it to be in the public interest to enquire into any conspiracy, combination, agreement or arrangement alleged to exist among manufacturers or dealers in any article of commerce to unduly promote the advantage of the manufacturers or dealers in such article at the expense of the consumers, the Governor-in-Council may commission or empower any judge of the Supreme Court, or Exchequer Court of Canada, or of any Superior Court or County Court in Canada, to enquire in a summary way into and report to the Governor-in-Council whether such conspiracy, combination, agreement or arrangement exists.

(3) The judge may compel the attendance of witnesses and examine them under oath and require the production of books and papers, and shall have such other necessary powers as are conferred upon him by the Governor-in-Council for the purpose of such enquiry.

(4) If the judge reports that such conspiracy, combination, agreement or arrangement exists in respect of such article, the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

# CANADIAN TARIFF OF CUSTOMS

COMPILED AND REVISED BY O. H. COGSWELL, B.A., OTTAWA.

NOTE—For the convenience of the public we have enlarged this edition of the Tariff by the insertion of a large number of items not classified in the official tariff. We have assigned the rates to the best of our information and judgment, and we believe they will be found fairly correct. We, however, disclaim all responsibility should the rates assigned not be verified as correct by the rulings of the Department.

Where there are three rates of Duty given, the first is the British Preferential Tariff, the second is the Intermediate Tariff, and the third is the General Tariff. The rate of Duty is per cent, *ad valorem*, except when otherwise specified.

## THE KING'S CIVIL LIST.

Consequent upon the death of Her Majesty Queen Victoria, and the accession of His Majesty Edward VII., there was passed in the Parliamentary session of 1901 what is known as the Civil List Act, the Act by which is determined what charges shall be made on the consolidated fund for the maintenance of the King and his family.

Until George III. came to the throne in 1760, the income of the sovereign was derived chiefly from Crown lands, from a variety of landed property in England and

Wales, Scotland and Ireland, in which the sovereign had a life-interest, and from which he received the rents. In the feudal ages these lands constituted a princely patrimony. In later times this Crown property was greatly reduced by lavish grants to royal favorites. At the Restoration the income from Crown lands was ascertained by a committee of the House of Commons to amount to £217,900 a year, in addition to £4,000 from the Forest of Dean. By the time Charles II. had been on the throne three years he had by his lavish bestowal

of the lands on favorites reduced the income to £100,000. William III., by his grants to favorites who had accompanied him from Holland, made further havoc with the Crown domains; so much so that at the accession of Queen Anne Parliament endeavored to save the remnant by an Act (1 Anne, c. 8) which prohibited alienation of Crown lands, and enacted stringent provisions in regard to the length of the term for which they might be leased and the rents reserved.

Since then, and especially since the Accession of Edward VII., the income from the Crown Lands has very greatly increased.

Queen Anne, George I. and George II. derived the larger part of their income from their life-interest in the Crown property, but when George III. came to the throne he surrendered his life-interest in the Crown lands. It was turned over to the nation in return for a fixed Civil List of £800,000, subsequently increased to £900,000. George IV., William IV. and Queen Victoria, on their accessions, surrendered their life-interest in the Crown lands in return for a Civil List. The same course was taken by Edward VII. when he came to the throne; and soon after Parliament assembled a committee of the House of Commons was appointed to recommend the new Civil List. It reported on the 4th of April, 1901, and its recommendations were embodied in an Act (1 Edward VII., c. 4), which was read a third time in the House of Commons on June 18th. By this Act the King's Civil List was fixed at a yearly sum of £470,000, assigned as follows:

CLASSES OF EXPENDITURE.	SUM APPROPRIATED.
I. Their Majesties' Privy Purse.....	£110,000
II. Salaries of His Majesty's household and retired allowances.....	125,800
III. Expenses of His Majesty's household.....	193,000
IV. Works.....	20,000
V. Royal bounty, alms and special services.....	13,200
VI. Unappropriated.....	8,000
Total.....	£470,000

In the event of Her Majesty Queen Alexandra surviving the King it is enacted that there shall be paid to the Queen during her life an annuity of £70,000.

Another clause provides that there shall be paid to the Prince of Wales "during the joint lives of his present Majesty and of his said Royal Highness, an annuity of £20,000"; that "there shall be paid to the Princess of Wales during the continuance of her marriage with the Prince of Wales, for her sole and separate use, but without any power of anticipation, an annuity of £10,000; and that in the event of the Princess surviving the Prince there shall be paid to her during her life an annuity of £30,000."

In respect to His Majesty's daughters, Princess Louise (Duchess of Fife), Princess Victoria and Princess Maud (Princess Charles of Denmark), it is enacted that as a provision for them there shall be an annual allowance of £18,000 during their joint lives, "to be reduced at the death of each of the said princesses by £6,000."

The Civil List of Her late Majesty, Queen Victoria, as fixed by the Act of 1837, was £385,000, assigned as follows:

Her Majesty's Privy Purse .....	£ 60,000
Salaries of Household.....	131,200
Expenses of Household.....	172,500
Royal Bounty, etc.....	13,200
Unappropriated .....	8,040

At the death of the Queen, the allowances to Her Majesty, to the Prince and the Princess of Wales, and in respect to the Prince of Wales's children, aggregated £471,000. The details of these payments were:

Her Majesty's Civil List.....	£385,000
The Prince of Wales (26 Vict., c. 1)....	40,000

Until the death of the Empress Frederick of Germany, on August 5th, 1901, annuities amounting to £72,000 were payable to other members of the Royal Family. These annuities were not affected by the death of the Queen, but with the death of the Empress an annuity of £8,000 came to an end.

The annuities to the Royal Family after the resettlement at the accession of Edward VII. stand thus:

His Majesty (Civil List) .....	£470,000

Princesses Louise, Victoria and Maud..	18,000
Princess Christian of Schleswig-Holstein .....	6,000

Duke of Cambridge.....	12,000
Duchess of Albany.....	6,000

Total.....£582,000

The revenues of the Duchies of Cornwall and Lancaster are outside the Civil List arrangement. Those of Cornwall, valued at £60,000 a year, are vested in the eldest son of the reigning sovereign, who becomes by birth the Duke of Cornwall, by virtue of a patent of Edward III. in 1337. The Duchy of Lancaster was the private patrimony of Henry Bolingbroke, son of John of Gaunt. It is separate from the other possessions of the Crown in order and government, but united to it in point of inheritance. It also brings in a revenue of £60,000 a year.

## THE BRITISH ARMY IN 1909-10.

### INCREASES AND DECREASES IN EXPENDITURE.

According to the Army Estimates which were submitted to Parliament on the 28th of February, 1909, by Mr. Haldane, Secretary of State for War, the total expenditure on the British Army for the year 1909-10 will amount to £27,435,000. This is a net decrease of £24,000 from the cost of the army for 1908-9. The expenditure on the army for the years from 1900-1 to 1909-10, as given by Mr. Haldane, amounted to £465,040,105, of which £163,622,500 constituted the extra charges entailed in the years 1900 to 1903 by the South African War. The figures for the separate years are as follows:—

1900-1 .....	£91,343,544
1901-2 .....	92,660,874
1902-3 .....	65,863,527
1903-4 .....	36,728,618
1904-5 .....	38,830,000
1905-6 .....	29,813,000
1906-7 .....	27,764,000
1907-8 .....	27,141,642
1908-9 .....	27,459,000
1909-10 .....	27,435,000

#### CHANGES IN THE EFFECTIVE SERVICES.

Although the aggregate amount required for the army in 1909-10 is almost the same as that required in 1908-9, there are very considerable increases and decreases in the amounts needed for the various effective services. There is a net decrease in the number of men in the regular army of 1,695; although there is an increase of 97 officers and 190 men of other ranks, due to the increased requirements of the Territorial Force for its permanent staff. The Territorial Force in 1909-10 called for an increase of £302,000, which is balanced by a decrease in army pay of the regular force of £445,000. In the table as presented to the House of Commons the decrease in army pay is set down as £895,000; but in former estimates the kit allowance (£450,000 in 1908-9) was included in the army pay; while in 1909-10 the kit allowance was provided under the vote for supplies and clothing. The details of expenditure are as follows:—

#### SOLDIERS OF THE REGULAR ARMY.

The number of effectives of all ranks at the beginning of the year 1909-10 showed a total of 603,517, not including the regular forces on the Indian Establishment, which numbered 76,590. Recruiting for the regular army, Mr. Haldane told the House of Commons on February 28th, had been remarkably brisk, and there had been no difficulty in making good the serious depletion of the ranks due to the efflux of three-years men to the Army Reserve. The enlistments in the regular battalions numbered 2,250 more than in the previous year. Mr. Haldane attributed this partly to the state of the labour market in Great Britain, but added that he believed that the army was becoming a more popular occupation. In answer to a question concerning amusements and training in the army, Mr. Acland, Financial Secretary to the War Office, stated that three-quarters of the recruits failed to come up to the educational standard of a child of ten in the Board Schools. These men were at once turned over to the army schoolmaster with very encouraging results. The soldier was now treated as a reasonable being, and there had been a remarkable decrease of crime in the army. With regard to the training given to the soldier, Mr. Acland said that the object was not to equip him to compete with skilled craftsmen when he re-entered civil life, but to fit him for habits of civil work, and the ordinary duties of citizenship. Of the 24,000 men who left the colours in 1908 with good characters, the War Office knew of 21,000 who had succeeded in obtaining employment, and there must be many more who had secured work whom they could not identify. That, added Mr. Acland, was not a bad record for a year when so many were out of employment. A good deal remained to be done by organizing agencies that were trying to obtain employment for ex-soldiers, and the War Office proposed to extend the experiment of training men in particular trades before they left the colours. The trades they had been most successful in getting soldiers to take up were not those which competed with organized labour. Mr. Acland thought that the old reproach against the soldier had disappeared. The War Office trusted and looked after him more, and the result was that they got a better and a cheaper army, which was more in touch with the life and the sympathies of the mass of the people.

## TRANSPORT : THE SUPPLY OF HORSES.

The question of transport and the means of mobilisation for the army was taken up in detail by Mr. Haldane, when he was explaining the estimates to the House of Commons. "With regard to the Army Service corps," he said, "the great difficulty is that the kind of transports required is different according to the part of the world in which the fighting is to be done." With reference to home defence the War Secretary told of the trials of motor omnibuses which had been carried out in Essex. These were conducted under service conditions, and turned out very satisfactorily. For the purpose, 94 motor omnibuses were supplied by the London General Omnibus Company. A whole battalion was carried down in motors from London to Hastings in March, and for home use motor omnibuses were considered by the War Office a satisfactory solution of the transport difficulty. The question of horses was a more difficult one. "We have gone very carefully into this question," said Mr. Haldane, "and with experts of the Quarter Master General's Department and the Remount Department have considered every plan. We are of course very anxious to get an increase in the supply of horses, bred in Great Britain, which would be available for war purposes. I hope the President of the Board of Agriculture will succeed in his experiments. How is the existing system with regard to mobilization to be dealt with? For the regulars, to mobilize six divisions and a cavalry division, with lines of communication, etc., a gross total would be required of 69,263 horses. Of that number we have only 15,542. For the mobilization of the territorial force, 86,000 horses would be required. Thus 156,000 horses would be required altogether on mobilization. We have got 25,000 registered horses, so that the deficiency to be provided for the general mobilization is 116,000 horses—that is for mobilizing everything. I am taking the worst possible case. How are we to get the horses we require? In every organized army in the world they have the same difficulty as we have. The only difference is that they organize the civilian horses of the country much more thoroughly than we have done. It is estimated that there are 2,000,000 horses in Great Britain, and after making all allowances I believe that there are at least 500,000 suitable for military purposes. That would be enough to mobilize the army three or four times over. The only question is how are they to be organized so as to be available on mobilization. We have come to the conclusion that we will try the experiment of making a thorough census of horses in one or two counties by means of the county associations and police. The scheme we have arranged is this:—that horses will be seen and classified by expert local committees, working in conjunction with the remount officials. In this way the Quarter-Master General and the Director of Transports believe that we shall be able to get a good record of the horses in the country and know how we stand in each county for mobilization. We have taken £6,000 in the estimates to start the plan with. When the census is complete, the associations will bring the horses up to certain points in mobilization, where they will be taken in charge by the General Officer Commanding-in-Chief, who will distribute them among the territorials and regulars. We find a very ready response to our tentative efforts in this direction. We are making a sort

of pool of horses at the depot. We propose to add another 250 horses to the peace establishment of existing horses which can be used for purposes of artillery."

## THE TERRITORIAL FORCE.

The first Annual Return of the Territorial Force was issued as a Blue Book at the end of July. The force was started on April 1st, 1908, with an establishment of about 11,000 officers and 302,200 non-commissioned officers and men. Up to June 30th, 1908, volunteers were allowed to enlist in the new force on a one-year engagement; after that all men were required to enlist for four years. By October 1st, 1908, a strength of 8,428 officers and 188,785 non-commissioned officers and men had been raised, and, roughly speaking, of the men 149,000 or 79 per cent. were ex-yeomen or ex-volunteers and 40,000 were recruits. The ex-volunteers included a considerable number who were not actually serving as volunteers on March 31st, when the volunteer establishment came to an end. Of the volunteers then actually serving, about 60 per cent. joined the Territorial Force. The response to the call varied greatly in the different parts of the country. In two districts, the 6th and 7th (North and South Midland) the percentage of the actual strength to the establishment of non-commissioned officers and men was over 70 before the end of 1908, while in two others it was barely over 50. Of the county associations which had the task of raising over 10,000 men, the west riding of Yorkshire with 69½ per cent. and West Lancashire with 67 per cent. and the East Lancashire with 62 per cent. did the best. Among those which had to raise between 5,000 and 10,000 there were better records, Stafford having obtained nearly 86 per cent. and Warwick and Durham each 74½ per cent. As there had been no Horse and Field Artillery in the Volunteer Establishment, this portion of the force had to be created. Entirely new units had to be formed in the case of ten Horse Artillery battalions with their ammunition columns, and five complete Field Artillery Brigades. There was some delay before recruiting for these new units could be begun. Nevertheless the percentages of strength to establishment by January 1, 1909, were 62 in the Royal Horse Artillery and 64 in the Royal Field Artillery. Taking all sections of the Engineers together, the percentage to the establishment obtained by the end of 1908 was 66 per cent., making the Engineers the best arm after the Yeomanry. The total percentage of strength to establishment in the infantry at the same date was 60 per cent. This included the cyclist battalions. Six months later, on the 1st of July, 1909, the strength of the Territorial Force had increased to:—Officers, 9,505 (not including 729 officers of the unattached list of officers of the Officers' Training Corps, and 782 officers of General Hospitals and Sanitary Companies, available on mobilization), non-commissioned officers and men 260,676. In July, 1909, the Territorial Force was widened by the formation of a Special Reserve of all men who proved themselves competent to take part in the defence of their country.

## THE BOY SCOUTS.

On the fourth of September, 1909, 11,000 boy scouts were reviewed at the Crystal Palace, London, by General Baden-Powell. The Boy Scouts, or "Lord Roberts'

Boys," form a further development of the Territorial Force idea, which was initiated by Lord Roberts early in 1908. Corps of boy scouts have been formed both from the secondary and the elementary schools, and arrangements were made in 1909 to give the boy scouts one or two weeks of training in camp at Bisley and in other suitable places. In September, the War Office issued instructions that a number of boy scouts should take part in the army manœuvres, and boy scouts have come to be recognized as a definite though unofficial branch of the service—as a training ground for the Territorial Force.

#### THE KING'S COLONIALS YEOMANRY.

This regiment, which is recruited chiefly from men belonging to the oversea dominions, of whom the majority are only temporary residents of Great Britain, is the first unit of the second line to undertake an Imperial obligation. Its members have assumed liability to service abroad with the regiment in any part of the world, should the Territorial Force or any part of it be mobilized. For some years previous to 1909 negotiations had been carried on, with the knowledge and approval of both the War Office and the Colonial Office,

between this regiment and the various dominions with a view to the forming of a corps of Territorial regiments who would voluntarily contract to serve the Empire in time of need or emergency, always provided that at the time their own governments should sanction the action. It had also been suggested that these regiments should be identified by a common badge, and that they should have one common honorary chief, to mark the special service to which they had voluntarily rendered themselves liable. These proposals were sympathetically received, and the principle was approved, among others, by Mr. Deakin, Dr. Jameson, Sir Frederick Borden, and General Head. Eight oversea regiments are at present allied to the King's Colonials. At the request of the War Office the King's Colonials set an example to the allied regiments in accepting a special liability which enables them to be sent abroad in the service of the whole Empire. It is worthy of note, that the regiment which was the first to do this was composed entirely of men whose permanent interests lie in the oversea dominions and not in Great Britain.

The army article in the *CANADIAN ALMANAC* for 1907 may be consulted for particulars as to the pay of officers and also for other particulars as to army organization.

## THE BRITISH NAVY IN 1909-10.

### THE DOMINIONS AND THE IMPERIAL NAVY.

The two outstanding features in British naval history for 1909 are the appearance of Germany as a great naval power, and the consequent increases in the British ship-building programme; and the new attitude of the colonies in regard to naval defences. The attitude of the Dominions was briefly summed up by Mr. Asquith on August 26th, 1909, in a statement to the House of Commons, giving the result of the conference on Imperial defence, which was held in London in the summer of 1909. "New Zealand," said the Premier, on August 26th, "preferred to adhere to her present policy of contributions; Canada and Australia preferred to lay the foundation of fleets of their own. As regards Australia, the suggested arrangement is that with some temporary assistance from Imperial funds the Commonwealth Government should provide and maintain the Australian unit of the Pacific fleet. The contribution of the New Zealand Government would be applied towards the maintenance of the China Unit, of which some of the smaller vessels would have New Zealand waters as their headquarters. The New Zealand armoured cruiser would be stationed in Chinese waters. As regards Canada, it was considered that her double seaboard rendered the provision of a fleet unit of the same kind unsuitable for the present. It was proposed, according to the amount of money that might be available, that Canada should make a start with cruisers of the Bristol class and destroyers of an improved river class—a part to be stationed on the Atlantic seaboard and a part on the Pacific.

In order to enable the Dominions to carry out to the full their new naval programmes, a bill was introduced into the House of Commons by Mr. McKenna, First Lord of the Admiralty, to amend the Colonial Naval Defence Act of 1865. Mr. McKenna's bill provides

that the proper legislative authority in a colony, raising and maintaining volunteers under the Act of 1865, shall have power to provide that such volunteers shall form part of the Royal Naval Volunteer Reserve, constituted under the Naval Forces Act of 1903, and that seamen and others, entered on the terms of being bound to serve as ordered in any vessel provided by the Government of the colony, shall also be bound to general service in the Royal Navy in emergency; when such provision is made by the colonial legislative authority as respects the men and their officers. The Act of 1865 enabled a colonial legislature to make provision for providing vessels of war and for raising and maintaining seamen under terms of being bound to serve on such vessels; but there was no power for the Government to make or the Admiralty to accept an offer of the services of officers and men except in a vessel provided by the colony.

#### THE INCREASES IN THE ESTIMATES FOR 1909-10.

The Navy Estimates for 1909-10 were introduced in the House of Commons by Mr. McKenna on March 12th. This was before the active agitation had begun over the German ship-building programme, and in view of the policy of retrenchment to which the Liberal party was committed, Mr. McKenna felt it necessary to apologize for the increases in the estimates over those of the previous year. "Our insular position," said the First Lord of the Admiralty, "the extent of our Empire, the magnitude of our trade, oblige us to maintain a navy adequate in strength to safeguard our shores against invasion, our Empire against hostile attacks and our trade against destruction in war. It followed therefore that we could not fix in advance limits to our naval power, that the size of our fleet must depend upon the naval progress of other nations." Alluding to Germany's

power of navy construction, he said that it would tax the resources of the great ship-building firms of Great Britain to keep pace with her. "In 1911," continued Mr. McKenna, "our total strength in Dreadnoughts and Invincibles would be 12 of the former and 4 of the latter. We should have 16 of these modern ships as against 13, for which Germany was already making provision. But the German law provided for the laying down of four additional ships in 1910-11, and if the construction were accelerated they could be completed by April, 1912, when Germany would have 17 Dreadnoughts and Invincibles. In any case they would be completed by the autumn of 1912. Therefore if we were to maintain our superiority in this type of battleship the Admiralty must be in a position to give orders for guns, mountings and armour, and to make all preliminary arrangements that we might be sure of having four more of these large vessels by March, 1912. We must be prepared to have 20 such ships against Germany's 17."

#### THE ATTACK ON THE GOVERNMENT.

Immediately following Mr. McKenna's statement that by 1912 Great Britain would have 20 Dreadnoughts against Germany's 17, came the attack on the Government, led by Mr. Balfour, who questioned the accuracy of Mr. McKenna's figures as to German ship-building. Mr. Balfour asserted that there was a possibility that in 1911 Germany would have 17 Dreadnoughts to 14 or 15 in the British Navy, and that by 1912 the figures would probably stand—Germany, 21; Great Britain, 20. The more moderate critics who followed Mr. Balfour pointed out that even according to Mr. McKenna's own figures, it would be difficult to maintain the two-power standard, plus ten per cent., if one possible antagonist alone possessed 17 Dreadnoughts to Great Britain's 20. The demand was also put forward that the two-power standard should be modified to mean that Great Britain should maintain a navy twice the strength of the second greatest navy in the world, exclusive always of that of the United States, rather than equal to the strength of the second and third combined. This would mean that in 1912, if Germany had 17 Dreadnoughts, Great Britain ought to have 34 instead of 20.

The result of the controversy was that by August the naval programme was increased by the acceleration of the building of 4 Dreadnoughts, which it had been intended should not be laid down until April, 1910. These 4 Dreadnoughts were additional to the four provided for in the Naval Estimates as presented to Parliament on the 12th of March, two of which were laid down in July, and the other two in November, 1909.

#### NEW SHIPS AND SHIPS IN BUILDING.

The Naval Programme, 1909-10, also called for 6 protected cruisers, 20 destroyers, and a number of submarine boats, for which Mr. McKenna asked a vote of £500,000. He also asked power from Parliament to arrange in the financial year 1909-10 for the ordering, collection and supply of guns, gun-mountings, armour, machinery, and materials for ship-building, thus making possible the laying down on April 1st, 1910, of four more ships, to be completed by March, 1912—the four ships the building of which has since been accelerated.

Between the 1st of April, 1908, and the 31st of March, 1909, the following ships were completed and became available for service:

Three battleships—Lord Nelson, Agamemnon, and Bellerophon.  
Four armoured cruisers—Indomitable, Inflexible, Invincible, and Defence.  
Five destroyers—Tribal class, three delayed from the previous year.  
Seventeen first-class torpedo boats—Coastal destroyer type.  
Seven submarines.

On April 1st, 1909, there were still under construction:—six battleships, one armoured cruiser (Invincible type), two unarmoured cruisers, five second-class protected cruisers, twenty-five destroyers, six first class torpedo boats, (coastal destroyer type), and nineteen submarines. Mr. McKenna also announced that the question of the use of dirigible air ships for naval purposes had been under consideration and it had been decided to carry out experiments and construct an aerial vessel.

#### COST OF THE NAVY IN 1909-10.

The amount asked for the Navy for the year 1909-10 was £35,142,700, as compared with £32,319,500 for the year 1908-9. Of the increase of £2,823,200, £1,274,215 was due to the heavier cost of the ship building programme. As regards the remaining one and a half million, £150,000 was required for pay, due to a correction of what had been an under estimate in the past; while a provision of £75,000 had also to be made to meet the further development of various schemes approved in previous years, which had carried with them improvements in the pay and allowances of the fleet. The rise in the vote for victualing and clothing was due in the main to the fact that stocks of victualing stores purchased in previous years had been drawn upon without replacement during the three financial years preceding 1909-10. The amount by which the vote was relieved in the financial year 1908-9 was £100,000. At the end of the year, there were no more surplus victualing stores left to be drawn upon. The £100,000 extra was therefore required to provide the corresponding supplies by cash purchases. The balance of the increase—£30,400—was due to a rise in the price of fresh food—principally meat.

The total number of officers, men, boys, coastguards and royal marines voted was 128,000. The amounts allocated were as follows:—

	Vote.	Inc. or dec.
Effective services, wages, etc.	£7,482,949	£150,500

## DISTRIBUTION OF THE FLEET.

Speaking of the distribution of the British Navy Mr. McKenna, when submitting the estimates to the House of Commons on March 12th, 1909, laid emphasis on the fact that the year 1909-10 was to be marked by a further development of the Home Fleet. The Channel Fleet, he stated, was to be absorbed into it, and there would be a rearrangement of the cruiser squadron and torpedo flotillas. The distribution was arranged as follows:—The Home Fleet is to consist of 16 fully manned battleships, formed in two divisions, and associated with them are six battleships of the Atlantic Fleet which henceforth are to use Dover as a base as well as Berehaven, making a total of 22 fully-manned battleships in home waters. Ten fully manned armoured-cruisers formed in two squadrons are attached to the Home Fleet, and associated with them is the squadron of four armoured-cruisers attached to the Atlantic fleet, making a total of fourteen fully-manned armoured cruisers in Home waters, exclusive of five armoured cruisers employed at sea on training service. There are also in the fully-manned division of the Home Fleet ten attached cruisers and scouts, 48 destroyers, and various auxiliary vessels. The nucleus crew vessels (including the remainder of the destroyers) and the submarines, and the special service vessels with reduced nucleus crews, are organized as two additional divisions of the Home Fleet, the third and fourth, under a vice-admiral. The cruiser squadrons, in accordance with the new arrangement, were renumbered. The first and second cruiser squadrons form part of a first and second division of the Home Fleet. The name Third Cruiser Squadron is now reserved for the armoured cruisers of the third division of the Home Fleet when combined. The Fourth Cruiser Squadron remains the training squadron. The cruiser squadrons which were attached to the Atlantic and Mediterranean fleets are now respectively the Fifth and Sixth Cruiser Squadrons.

## THE DREADNOUGHT ARMoured CRUISERS.

The armoured cruisers of the Indomitable-Indefatigable group, which are reckoned in the Dreadnought class, make an official speed of 27 to 29 knots. They are all heavily-armed, fast fighting vessels, and have a length between perpendiculars of 530 feet, and over all of 562 feet. Their beam is 78 feet 6 inches, and the mean load draught 26 feet. The maximum fuel capacity is 2,000 tons, and the full load draught about 29 feet. All these vessels are driven by turbines, and the estimated horse-power is 41,000. In the Indomitable this is obtained with natural draught, but in the sister vessels forced draught is applied. The armament of the Indefatigable consists of eight 12-inch Mark X guns, so disposed that all can be fired on either broadside, and six ahead or astern. Two of the guns are mounted in a turret forward on the forecastle deck, four are mounted in two turrets arranged diagonally amidships on the same deck. The other two guns are carried in a turret on the quarter-deck. The freeboard forward is about 32 feet; amidships, 29 feet, and aft, 20 feet. In actual fire, therefore, the Indefatigable is equal to the Dreadnought, which has ten 12-inch guns; but the battleship has the advantage of two guns in reserve on the unengaged broadside, or available to bring to bear against an enemy on that broadside. The weight of the broadside discharge is 6,800 pounds, with an aggregate muzzle energy of 318,774 foot tons. Great perfection has been attained in the working and control of the gun turrets. With the aid of an ingenious device the gun-layer can follow his object at a creeping pace, almost imperceptible, and yet in an instant can begin to run through the whole arc of training with great rapidity without the slightest undue pressure on the turret system, or the liability of sudden loss of control even in the roughest seaway.

## COMPARATIVE STRENGTH OF THE WORLD'S NAVIES.

In a White Paper prepared for March 31st, 1909, a return was given of the ships built and building of Great Britain, France, Russia, Germany, Italy, the United States and Japan. All vessels not more than twenty years old are included in the White Paper which gives the armament, displacement, horse power and date of construction of each of the ships. The number of ships built and building is given as follows:—

3. Rifle Associations organized under these regulations come under the control of the Department of Militia and Defence.

4. To form an association in a locality requires not less than forty men residing therein, and aged over sixteen years. They must be members of the Active Militia (for Military Associations); or subscribe to the oath of allegiance to His Majesty (for Civilian Associations).

5. A captain is appointed to every Civilian Association, who, with a committee of two members, manage the affairs of the association.

8. An association may be disbanded for grave irregularities or mismanagement.

9. A member may be expelled by a two-third vote of the association to which he belongs.

10. No man is allowed to belong to more than one association.

11. The District Officer Commanding is charged with the organization, etc., after the necessary papers have been forwarded by him, are recommended at head-

quarters and approved by the Minister of Militia and Defence.

12. An association maintaining a membership of less than forty must disband.

13. In the event of a national emergency, any person who is or has been duly enrolled in any Rifle Association in Canada shall be deemed to be already enrolled in the Reserve Militia of the Dominion.

14. *Rifle*.—The arm used is the '303 rifle, either of Government issue or of *bona fide* Government pattern, and bearing the Government viewer's mark.

15. Associations may be supplied with rifles for the use of members on the captain's requisition and on his furnishing a bond signed by three responsible members, for the safety, preservation, and safe return when required to do so, of all rifles issued to them. (Note.—Each rifle is valued at \$25).

16. Under the conditions of the bond, ten rifles may be issued to each association of forty members, and five additional rifles for every twenty additional members, until the stock of rifles available for this purpose be exhausted.

17. *Ammunition*.—200 rounds a year to each member of a Military Association; 100 rounds to each member of a Civilian Association; free issue.

## MILITIA AND DEFENCE OF CANADA.

Previous to the confederation of the Provinces, the defence of this country was entirely in the hands of the Imperial Government, who for that purpose maintained troops in each Province, supported by various local volunteer militia corps. This volunteer militia had, when called upon, rendered most efficient service in times of trouble.

After Confederation the British Government gradually withdrew all the Imperial troops from this country, and at present none remain.

By the British North America Act the command in chief of all naval and military forces of and in Canada was vested in the Sovereign, and the control of the same was placed in the hands of the Dominion Parliament. A Department of Militia and Defence was at the same time established, the first Minister being Sir George E. Cartier, and the first Militia Act was passed in 1868, 31 Vic., chap. 40. The Act was subsequently amended in various ways, especially in 1904, when a new Militia Act was passed (ch. 23, 4 Ed. VII.). By it the Militia of Canada is declared to consist of all the male inhabitants of Canada of the age of 18 years or upwards and under 60, not exempted or disqualified by law, this population being divided into four classes, as follows:

The first class comprises those aged 18 or upwards and under 30, being unmarried or widowers without children.

The second class comprises those between the ages of 30 and 45, being unmarried or widowers without children.

The third class comprises those between 18 and 45, being married, or widowers with children.

The fourth class comprises those between 45 and 60.

The following persons are exempt from enrolment and active service at any time: Members of the King's Privy Council for Canada, Judges, Members of the Executive Councils of Provinces, Deputy Ministers of the Federal and Provincial Governments, clergymen and ministers of all religious denominations, professors in colleges and teachers in religious orders, the wardens and officials of all penitentiaries and lunatic asylums, persons physically disabled, and any person being the only son of a widow and her only support. Certain other persons are exempt from service except in case of war.

The Active Militia, or any portion thereof, may be ordered to drill or train for a period of not more than 30 days in each year.

The Militia is divided into Active and Reserve Forces. The Active force is composed of men raised either by voluntary enlistment or by ballot, and the Reserve force consists, practically, of the whole of the efficient men not serving in the Active Militia of the time being.

The period of service, for the Active Militia, is three years; for the Reserve Militia, such as is prescribed.

## CANADIAN TEAMS TO WIMBLEDON AND BISLEY AND OFFICERS THEREOF FROM 1872 TO 1909.

Canada has always been represented by a team of its best shots at the annual Prize Meeting of the National Rifle Association of England. The first matches were held in 1872, at Wimbledon, but since 1890 they take place at Bisley. The most coveted of all prizes, the Queen's—now the King's prize (£250), was won twice by a Canadian: Pte. T. H. Hayhurst, 13th Regiment, Hamilton, Ont., in 1895, and Pte. J. S. Perry, 6th Regiment, D. C. O. R., Vancouver, B.C., in 1904. Many other important prizes have also been captured by our countrymen. The Kolopore Cup, contested for by the Mother Country and the Colonies was won nine times by the Canadians: in 1872, '75, '81, '84, '89, '96, 1905, 1906, and 1909. Eight men compose the team.

Canada sends to Bisley twenty representatives to take part in the various matches open to them, and these men are selected by competition held at Ottawa under the Dominion of Canada Rifle Association.

## THE CANADIAN RIFLE LEAGUE.

(HEADQUARTERS, OTTAWA, ONT.)

In 1893 the Canadian Rifle League was formed, with Headquarters at Toronto, the moving spirit and chief organizer being Lieut. W. R. Pringle, of the 10th Regiment, Royal Grenadiers. Rifle associations from all over the Dominion affiliated, and a series of simultaneous matches on given dates was inaugurated. In 1895, the Honorable the Minister of Militia and Defence granted free ammunition to the League teams, and with one exception this has been the rule since.

Four matches are held annually over King's ranges (200, 500 and 600 yards), and prizes given to the leading teams. Marksmen's certificates, signed by the Minister of Militia and Defence, and the Chief of the General Staff, are issued as follows:—

For an average of 94 points out of a possible 105, a first-class special certificate; for 90 points, a first-class certificate; for 80 points, a second-class certificate.

The competitions are divided into four series, as follows:—

The first (military) for teams of city corps of the Active Militia; the second (military) for units other than city corps; the third, or civilian series, for teams of Civilian Rifle Associations; the fourth (sections "A" and "B"), Cadet Corps. The entrance fee per team is \$10. Fees for additional teams from the same organization, \$5 each. Organizations bringing five new men to the Dominion of Canada Rifle Association Meeting get free entry for one team to the C.M.R. League competitions for the following year.

## THE PALMA TROPHY INTERNATIONAL RIFLE-SHOOTING CONTEST.

(Last Contest: 1907.)

This trophy of the United States was first put up to competition to the riflemen of the world, at Creedmore, Long Island, in September, 1876, and was incidental to the big Centennial Exhibition. It was then won by a team of the United States, against teams representing Ireland, Scotland, Australia and Canada respectively. As a souvenir of the occasion each member of the competing teams was presented with a handsome medal. In 1877 it was again won by the United States against Great Britain. It was only in 1901 that a Canadian team again competed for it, and this time won the trophy. On the 13th of Sept., 1902, immediately after the meeting of the Dominion of Canada Rifle Association, the competition took place at Ottawa, by teams from Great Britain, Canada and the United States, and the prize carried off by Great Britain. The ranges are 800, 900 and 1,000 yds., 15 shots at each range; teams composed of eight men each. The contest for this

trophy was held at Bisley, England, on the 11th July, 1903, and won by the United States, but the cup was returned to the National Rifle Association of Great Britain, as barrels of rifles used by U.S. team had not been authenticated by latter Government. The next competition took place at Rockcliffe Rifle Range, Ottawa, on 7th Sept., 1907, with the following result:

	United States.	Canada.	Australia.	Great Britain.
800 yds.....	590	566	570	551
900 yds.....	573	554	553	526
1000 yds.....	549	551	530	503
Totals....	1712	1671	1653	1580

The teams finished in the above order, and the United States representatives brought back the prize; it was not contested for during the years 1908 and 1909.

## Letter Rates, &c.

**Canada.**—Letters posted in Canada, addressed to any place within the Dominion, 2 cents per oz. If unpaid, such letters cannot be forwarded, but will be sent to the Dead Letter Office. If partially prepaid, the letter will be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office are charged 1 cent per oz., and must be at least partially prepaid; otherwise they are sent to the Dead Letter Office. All postage must be prepaid by postage stamps.

**Post Cards.**—From any place in Canada to any place in Canada or to the United States or Mexico, 1 cent each. British and Foreign, 2 cents each.

**Private Post Cards.**—The face of a Private Post Card may be used for advertisements, illustrations, etc., provided that a clear space of at least  $\frac{1}{4}$  inch is left along each of the four sides of the postage stamp, and a clear space  $\frac{3}{4}$  inches long and  $1\frac{1}{4}$  inches wide reserved for the address at the lower right hand corner of the card. Private Post Cards for delivery in Canada, U.S. and Mexico, must not exceed a size of 6 inches in length by  $3\frac{1}{2}$  inches in width, nor be less than 4 inches in length by  $2\frac{1}{2}$  inches in width. Cards for other countries must not exceed  $5\frac{1}{2}$  inches in length by  $3\frac{1}{4}$  inches in width, nor be less than 4 inches in length by 3 inches in width. Cards of dimensions not conforming to these regulations are treated as insufficiently paid letters if they bear written communications.

**Pictorial Private Post Cards which have communications on address side.**—Cards which have the back covered by a picture, and one-half of the front to the left of the address space reserved for written communications, are admitted as post cards.

Cards bearing the title "Post Card" or its equivalent are admitted to the mails at the rate for printed matter provided they conform to the general regulations respecting printed papers.

**United Kingdom, Egypt, and British Possessions and Protectorates.**—Postage on Letters, 2 cts. per oz.

**Foreign Countries, except United States and Mexico.**—Postage on Letters, 5 cents for a letter weighing one ounce or less. For letters weighing over one ounce 5 cts. for the first ounce and 3 cts. for each subsequent ounce or fraction of an ounce.

Double the deficient postage is charged on all unpaid or insufficiently paid letters for other countries.

Fully paid registered letters bearing "Special Delivery" stamps or ordinary stamps of the value of 10 cts., in addition to the postage and registration fee and the words "Special Delivery," come under the operations of this scheme of special delivery.

## Registration of Letters.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration in addition to the Postage is, on all classes of matter, five cents.

Both the Postage charge and Registration fee should, in all cases, be prepaid by stamp.

Registration is not an absolute guarantee against the miscarriage or loss of a letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

## Indemnity for Registered Articles.

(1) In case of the loss in the Postal Service of a registered article posted in Canada for delivery in Canada the addressee, or at the request of the addressee, the sender, is entitled to an indemnity, which in no case shall exceed twenty-five dollars, or the actual value of the lost registered article when the same is less than twenty-five dollars, provided no other compensation or reimbursement has been made therefor.

(2) The indemnity will be paid, provided the loss of the registered article is reported to the Department within one year of the date of posting, upon receipt of sworn statements of the persons concerned,—

(a) that according to the best of knowledge and belief the registered article has been lost in the mails.

(b) as regards the value of the contents of the lost registered article.

(c) as regards the ownership of the same.

(3) No indemnity is given for a registered article which has not been entirely lost in the mails.

(4) No indemnity is given for an article upon which the registration fee has not been paid.

## Book Post, &c.

A Book Packet may contain any number of separate books. Limit of weight for domestic post, 5 lbs. (unless consisting of a single book, in which case a weight of 10 lbs. is allowed); for foreign post, 4 lbs. Limit of size, domestic: 30 inches in length by 1 foot in width or depth; foreign: two feet in length, by one foot in width or depth.

Book packets must be open at *both ends or both sides*, and must not contain any letter or sealed inclosure.

Books for the use of the blind are free of Canada postage, and correspondence passing between blind persons in raised characters is chargeable at the rate of 1 cent per 2 ozs.

The rate on Book Packets for delivery in Canada, Great Britain, the United States and all Postal Union Countries, is 1 cent per 2 ozs.

## Miscellaneous Matter.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of the rates indicated below. The regulations do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom and other countries by Book Post:—

Matter (other than newspapers and periodicals), wholly in print without reference to process, such as circulars, catalogues, calendars, hand-bills, books, pamphlets, printed forms, maps, prints, drawings, plans (without written specifications) engravings, lithographs, photographs (when not on glass or in cases containing glass)

official or private post cards in quantities, sheet music (whether printed or written) instruction books in music, visiting cards, the manuscript of books or newspapers (whether hand-written or type-written) indented or perforated sheets of paper containing characters which can be read by the blind, botanical entomological and mineralogical specimens and the following partly-written and partly-printed matter:—militia and school returns, customs manifests, voters' lists, school or college examination papers, printers' proof sheets with corrections, exhibition entry tickets, municipal assessment rolls, Dominion and Provincial Government returns on official blanks, and all Dominion and Provincial Government documents, statute labor returns and municipal returns in general, etc., on which the rate of postage is 1 cent for each 2 ozs. or fraction thereof. To come within this class the material printed upon must be either paper, cardboard or parchment.

The following articles are subject to the rate of 2 cents for the first 4 ozs. or fraction thereof, and one cent for each additional 4 ozs.:—Seeds, cuttings (but not cut flowers), roots, bedding plants, scions or grafts.

Writing paper specially prepared for the use of the blind transmitted from a recognized Institution for the Blind in Canada to blind persons for their own use is allowed to pass at the rate of 1 cent for each 4 ozs. or fraction thereof; but before any Institution can post such paper at the above rate the Post Office Department at Ottawa must be satisfied as to its claim to be considered an Institution for the Blind.

No letter or other communication intended to serve the purpose of a letter must be sent or inclosed in any such package or thing mentioned, and the same must be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision (if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged).

No packet of miscellaneous matter can be transmitted by mail if it exceeds 5 lbs. in weight, 30 inches in length or 12 inches in width or depth, nor may the combined length and girth of any packet exceed 6 feet.

Legal and commercial papers generally are liable to *letter rate* of postage when posted for delivery within the Dominion of Canada.

Printed or written *requests for return* are recognized on 3rd and 4th class matter, addressed to places within the Dominion, and same will be *returned direct to the sender*, subject to the payment by the sender, on delivery to him through the Post Office, of the full amount of postage to which the article was in the first place liable, together with any charges rated thereon on account of any deficiency in the original prepayment.

### Newspapers and Periodicals.

The general postage rate on newspapers and periodicals published in Canada not less frequently than once a month, and addressed to regular subscribers in Canada, Mexico, the United Kingdom, the Bahamas, Barbados, Bermuda, British Guiana, British Honduras, British North Borneo, Ceylon, Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Hong Kong, Jamaica, Leeward Islands, Malta, Mauritius, New Zealand, Northern Nigeria, Sarawak, Seychelles, Sierra Leone, Southern Nigeria, Transvaal, Trinidad and Tobago, Turk's Islands, Zanzibar, and Newfoundland, and to newsdealers in Canada, is fixed by law at  $\frac{1}{2}$  cent per pound. The following exception, however, is to be noted: Newspapers and periodicals published not more frequently than once a week and not less frequently than once a month, are entitled to pass free to regular subscribers and newsdealers in Canada within a circular area of 80 miles in diameter, having as centre either the place of publication or any established Post Office not more than 40 miles distant therefrom, the choice of a centre within these limits resting with the publisher; and such newspapers and periodicals are to be put up into packages and delivered into the Post Office, under such regulations as the Postmaster-General may from time to time make.

On all newspapers and periodicals posted in Canada, for delivery in the Dominion or Mexico, and on newspapers and periodicals published in Canada and posted for delivery in the United Kingdom, or the British Possessions mentioned above, other than those addressed to regular subscribers or news agents from office of publication, the rate is *one cent per  $\frac{1}{4}$  oz.*, to be invariably prepaid by Postage Stamp.

Copies of legitimate daily newspapers can be mailed by the publishers in Canada to regular subscribers and newsdealers in the United States on prepayment in cash at the rate of 1 cent per pound or fraction thereof and other newspapers and periodicals sent to the United States either by publishers or other individuals are subject to the rate of 1 cent per 4 ounces.

Newspapers and periodicals weighing less than 1 oz. each may be posted singly, if prepaid by Postage Stamp  $\frac{1}{2}$  cent each.

The postage on *bona fide* specimen newspapers, and on papers and periodicals published less frequently than once a month, is 1 cent per lb.

British and foreign publications may be posted by newsdealers in Canada to subscribers in Canada at the rate of 1 cent per lb. They cannot however be posted at that rate for local delivery at places where there is a free letter carrier service.

### Transient Newspapers.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, other than *Canadian newspapers sent from the office of publication, and British and foreign newspapers posted by news agents for regular subscribers* in Canada. When addressed to any place within the Dominion, the United States or Mexico, and, when published in Canada, and addressed to any place in the United Kingdom, Bahamas, Barbados, Bermuda, British Guiana, British Honduras, British North Borneo, Ceylon, Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Hong Kong, Jamaica, Leeward Islands, Malta, Mauritius, New Zealand, Newfoundland, Northern Nigeria, Sarawak, Seychelles, Sierra Leone, Southern Nigeria, Transvaal, Trinidad and Tobago, Turk's Islands or Zanzibar, they must be prepaid the following rate by Postage Stamp:—

One cent per four oz. or fraction of four oz.

Transient newspapers and periodicals not published in Canada are subject to the ordinary printed matter rate of 1 cent per 2 ozs. when addressed to the United Kingdom or British Colonies.

### Samples within the Dominion.

Samples of Merchandise and Goods for sale, not having saleable value and not exceeding 3 lbs. in weight, except samples of tea, which must not exceed 8 oz. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent for each 2 ozs. or fraction thereof under the following regulations:

If insufficiently prepaid the packet will be forwarded charged with double the deficient postage, provided at least 1 cent is prepaid.

Packages of Samples addressed to any place in Canada, may be registered by affixing thereto stamps to the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened.

The packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended; and also a trade mark or number, and the price of the sample enclosed; *inside*, there must be no enclosure but the samples themselves. The particulars, however, of the trade marks, numbers, and prices may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

Articles of saleable value even when intended to serve as samples are not admissible at sample rate.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade samples, are not admissible.

Liquids, oils, etc., may be sent by mail in the Dominion if put up carefully in strict accordance with the directions given in the Postal Guide and ascertainable at any post office.

### United Kingdom, United States and Foreign Countries.

Samples of Merchandise, when addressed to places in the United Kingdom, must not exceed 5 lbs. in weight; to the United States and other foreign countries, 12 oz.; and must be prepaid by postage stamp at the following rates:—1 cent per 2 oz. or fraction of 2 oz., with a minimum prepayment of 2 cents covering a weight of 4 oz.

Samples of liquids, oils, glass, etc., are admitted as samples provided they are put up in strict accordance with the directions given in the Postal Guide.

### Useful Hints.

Register all valuable letters. Transmit money by Postal Notes or Money Orders. Make complaints and inquiries in writing, and address the Postmaster-General at Ottawa. Preserve, and request correspondents to preserve, envelopes of missent or delayed letters. Send to the Postmaster-General envelopes of letters about which you seek information or make complaint. In addressing letters add the name of the *County and Province* in which the office addressed is located. Place stamp on the right-hand upper corner of the address side. Put your own name and full address in or on letter, to insure return if it cannot be delivered. In affixing postage stamps moisten the envelope, *not the stamp*. When stamps are moistened the gum is apt to be removed.

### Parcel Post with the United Kingdom, Newfoundland and other British Colonies and Foreign Countries.

Closed parcels may be exchanged with the United Kingdom, Newfoundland and most foreign countries and British colonies under the following Regulations:—

1. Every Parcel must be fully prepaid by postage stamps.
2. The dimensions of a Parcel addressed to the United Kingdom must not as a general rule exceed 30 inches in length or 1 foot in width or depth, nor must the combined length and girth of any parcel exceed 6 feet, a length of 3 feet 6 inches is allowed, however, in the case of parcels containing articles such as golf sticks, umbrellas, etc. The dimensions of a Parcel addressed to any country other than the United Kingdom must not exceed 2 feet in length by 1 foot in width or depth.
3. A Parcel must not contain a letter or any writing in the form of a letter, or any explosive, combustible, or dangerous articles.
4. All Parcels must be securely and substantially packed and closed.
5. Oils, liquids, etc., can only be forwarded if put up with the same security required in connection with their transmission as samples in the ordinary mails. Fragile articles should be packed with special care.
6. Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the parcel is intended.
7. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel; also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by mucilage or paste to the parcel to which it relates.

Parcels from the United Kingdom or any other place beyond the Dominion will be liable to Canadian Custom

duties, and under existing regulations must be examined for the purpose by an Officer of the Customs in the presence of the persons addressed.

Rates and limits of weight vary. See Postal Guide, or enquire at Post Office.

Parcels must be handed to the Postmaster; in no case should they be dropped into a letter box or other receptacle for mail matter.

### Fourth Class Matter.

Postage rate 1 cent per ounce or fraction thereof, to be prepaid by postage stamp. Miscellaneous articles of merchandise, including seeds, bulbs, etc., to United States, and generally all matter permitted to pass by mail in Canada, which is not of the nature of a letter, and therefore subject to letter rate of postage, nor entitled to pass as 3rd class matter, may pass as 4th class when addressed to any destination within the Dominion or the United States. Fourth class matter must be so packed or put up as to be open to examination of contents and must not exceed 5 lbs. in weight. The limit of size is 30 inches in length by 1 foot in width or depth, but the combined length and girth of any packet must in no case exceed 6 feet. When passing between Canada and the United States it will be subject to Customs regulations if liable to duty. The registration charge on 4th class matter is 5 cents in addition to postage.

A packet of 4th class matter may contain invoices and accounts, provided they relate exclusively to the contents of such packet; it is also permitted to enclose a card or slip of paper giving in a brief manner necessary directions for the identification or treatment of the article or articles contained in the packet. Care must be taken not to abuse this privilege by converting such notes or marks, designed solely for the facilitation of business between the sender and the addressee, into what might properly be called correspondence. A packet of 4th class matter containing a letter or any writing intended to serve the purpose of a letter in the ordinary sense will become liable to letter postage, and he sender will incur the penalty provided by law.

When several separate articles are enclosed in a packet of 4th class matter, there is no objection to each bearing a distinguishing number, so as to enable the sender to give directions by letter (sent of course separately and duly prepaid) respecting the several articles which the packet contains.

### Prohibited Articles.

All explosive, dangerous or destructive substances, glass bottles or glass in any form liable to break, and all matter subject to speedy decay, all obscene or immoral books, publications, pictures, etc., libellous post cards and letters the covers of which bear words of an offensive character, and letters and circulars relating to illegal lotteries or other fraudulent schemes.

### Foreign Post—Commercial Papers.

"Commercial Papers" are understood to comprise all papers or documents written or drawn wholly or partly by hand (except letters or communications of the nature of letters or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, deeds drawn up by public functionaries, copies of or extracts from deeds under private seal and (whether written or printed on stamped or unstamped paper) way bills, bills of lading, invoices and other documents of a mercantile character, documents of insurance and other public companies, all kinds of manuscript music, the manuscript of books and other literary works, also open letters and post cards of ancient date which have already fulfilled their original purpose and pupils' exercises in original and corrected form but without any comment on the work. The rate is 1 cent per 2 ozs., but each packet must have a minimum prepayment of 5 cents; this prepayment will cover a weight of 10 ozs. No packet must exceed 2 feet in length or 1 foot in width or depth, unless in the form of a roll, when a length of 30 inches is allowed, provided the diameter does not exceed 4 inches. The weight must not exceed 4 lbs.

# STEAMSHIP AND STEAMBOAT LINES

The thanks of the publishers are due to E. W. Bullinger, Esq., for his kind permission to use “Bullinger’s Postal and Shippers’ Guide for the United States and Canada” in the preparation of the following list:—

**GRAVING DOCKS IN CANADA.**—There are four graving docks in Canada, three belonging to the Federal Government and one owned by a company. For 20 years from the completion the company has subsidies from the Imperial and Canadian Governments and from the city of Halifax, where it is located, amounting in all to about \$80,000 (£6,180), of which the Canadian Government pays \$10,000 a year. The following statement shows the dimensions of these graving docks:—

In the foregoing list the asterisk denotes members of the British House of Lords entitled to the designation of "Right Honourable." Barons Aylmer and de Blaquière are of the peerage of Ireland and not members of the House of Lords. The title of Baron de Longueuil existed prior to the Treaty of Paris (1763), and was duly recognized by Queen Victoria pursuant to that treaty, Sir Wilfrid Laurier, Sir Richard Cartwright, Sir Charles Tupper, Sir H. E. Taschereau and Sir Charles Fitzpatrick

are styled Right Honourable as members of the English Privy Council. Members of the Canadian Privy Council are designated above by a † and have also the title of Honourable. Judges are distinguished by a † and are also by courtesy or custom Honourable. The English practice is to give the title of Knight Bachelor to members of the Judicial bench, and the Attorney and Solicitor-Generals. \*\*\* Senator; hence, honourable.

For list of Companions of the Imperial Service order see page 337.

The Order of Baronets, the lowest hereditary rank, was instituted in 1611; a Baronet is designated "Sir John Smith, Baronet"—usually written Bart. Taking precedence of Baronets are members of The Most Honourable Privy Council, who are addressed "Right Honourable."

The Order of the Bath, instituted in 1890, and revived in 1725, is divided into three classes—Knights Grand Cross, G.C.B.; Knights Commanders, K.C.B.; and Companions, C.B.

The Order of St. Michael and St. George, instituted in 1813, has also three classes—G.C.M.G., K.C.M.G., and C.M.G.

The Royal Victorian Order, instituted in 1896, has five classes—G.C.V.O., K.C.V.O., C.V.O. Members 4th and 5th classes—M.V.O.

In all Orders of Knighthood the Knights Grand Cross and the Knights Commanders have the prefix "Sir" with the initials of their class following the name. Companions and Members bear no title, but have the letters C.B., C.M.G., M.V.O., as the case may be, attached to their names.

Knights Bachelors are gentlemen who have received the honour of Knighthood, and are entitled to the prefix "Sir" and to "Knt." after name.

It follows that members of any order of Knighthood may be entitled to several prefixes and affixes, as: Field Marshal The Rt. Hon. Earl Roberts of Kandahar, Pretoria, and Waterford, K.G., K.P., G.C.B., G.C.S.I., G.C.I.E., D.C.; The Rt. Hon. Sir Wilfrid Laurier, G.C.M.G.; The Hon. Sir C. Tupper, Bart, G.C.M.G., C.B.

# THE BRITISH GOVERNMENT.

THE ASQUITH ADMINISTRATION—APRIL, 1908.

Owing to the serious illness which terminated in his death on April 22nd, Sir Henry Campbell-Bannerman resigned the office of Premier on April 6th, 1908. Two days later, April 8th, Mr. Asquith accepted from King Edward, who was then at Biarritz, the appointment of Prime Minister, and at once proceeded to reorganize the Cabinet. ## THE OFFICE OF PRIME MINISTER.

By Royal Warrant dated December 6th, 1905, an important change was made in the status of the Prime Minister. Until 1894 the office of Prime Minister, although it had existed for so long, had no official recognition. "Departmentally," Mr. Gladstone once wrote in reference to the Prime Minister, "he is no more than the first-named of five persons by whom jointly the powers of the Local Treasurerships are to be exercised. He is not their master, or otherwise than by mere priority their head, and he has no special function or prerogative under the formal constitution of the office. He has no official rank, except that of Privy Councillor. Eight members of the Cabinet, including five Secretaries of State and several other members of the Government, take official precedence of him. His rights and duties as head of the administration are nowhere recorded. He is almost, if not altogether, unknown to the statute law."

The first official recognition of the office came on March 3rd, 1894, when the "Court Circular" stated that Queen Victoria had offered to the Earl of Roseberry the "post of Prime Minister, vacated by the Right Hon. W. E. Gladstone, M.P." Even after this first official recognition the precedence of the Prime Minister was not determined; and there was no determination of his precedence until the Royal Warrant of December 6th, 1905, which announced "our Royal will and pleasure that in all times hereafter the Prime Minister of us, our heirs and successors, shall have precedence next after the Archbishop of York." Consequently the Prime Minister now has his place between the Archbishop of York and the Lord Chancellor of Ireland, and precedence over every member of his Government except the Lord Chancellor.

## THE GOVERNMENT DEPARTMENTS.

### THE TREASURY.

*Chancellor of the Exchequer*—Rt. Hon. D. Lloyd-George.

*First Lord of the Treasury*—Rt. Hon. Herbert Asquith.

*Financial Secretary to the Treasury*—Rt. Hon. C. E. Hobhouse.

*Patronage Secretary to the Treasury*—Rt. Hon. J. A. Pease.

*Junior Lords of the Treasury*—Capt. Cecil Norton, Mr. J. H. Whitley, Mr. O. Partington.

The Treasury, of which the Chancellor of the Exchequer is the political head, provides the means for meeting the charges for the military, naval, and civil services. The Parliamentary heads of each of the spending and administrative departments of the Government are responsible for the estimates for their respective departments; but it is the duty of the Chancellor of the Exchequer, with the permanent Secretary to the Treasury, to check all these estimates before they are submitted to the House of Commons in Committee of Supply. The Cabinet becomes responsible for estimates which have been submitted to Parliament, and the rejection or reduction of an estimate by the House of Commons is tantamount to a defeat of the Government. The duties which bring the Chancellor of the Exchequer most prominently before the country, are those in connection with the Budget. The first Lord of the Treasury is one of its Parliamentary heads; but the duties of the First Lord are little more than nominal, and the office is usually held by the Leader of the House of Commons. The Patronage Secretary to the Treasury is the official title of the Government whip in the House of Commons. The Junior Lords are his assistants. The Financial Secretary represents the Treasury in the House of Commons.

## THE FOREIGN OFFICE.

*Secretary of State for Foreign Affairs*—Sir Edward Grey.  
*Under Secretary*—Mr. Thomas McKinnon Wood.

All diplomatic intercourse is conducted by the Secretary of State for Foreign Affairs, who is usually of the House of Lords. The office is next in rank and importance to that of Premier, and is sometimes held in conjunction with that office. Ambassadors and consuls receive their instructions from the Foreign Office. Foreign ambassadors in London have their audiences with the Secretary of State, and he also conducts the negotiations for international treaties. The Under Secretary represents the Department in the House of Commons.

## THE COLONIAL OFFICE.

*Secretary of State for the Colonies*—Earl of Crewe.  
*Under Secretary*—Colonel Seely.

The Colonial Office dates back to 1660, when a Committee of the Privy Council was appointed for the Plantations, as the Colonies were then called. This Council was continued until 1768, when colonial affairs were placed under the control of a Secretary of State. When the United States secured their independence in 1783, the office of Colonial Secretary was abolished, and colonial affairs were managed from the Home Office. In 1794 the colonies were placed under the care of the Secretary at War. This arrangement was continued until 1854, when the War Department was reconstructed, and separate Secretaryships of State were established for War and for the Colonies. The colonies are divided into three classes. In the first are the Crown colonies, in which the Crown has entire control of legislation, and which are administered from the Colonial office. India and Cyprus are examples of Crown Colonies. In the second class are the colonies with representative institutions, but not responsible government. In these the Crown has a veto on legislation and retains control of the public offices. Such colonies are Ceylon and Jamaica. The third class includes the colonies having responsible government, such as Canada and the Australasian colonies. Since August, 1917, the Colonial Office has been organized in 3 departments (1) Dominion Department, concerned exclusively with the self-governing colonies; (2) Crown Department concerned with Crown Colonies; and (3) Department having charge of legal and financial business. There was then appointed a Permanent Secretary for the Imperial Conference—Mr. H. W. Just being the first holder of the Office.

## THE INDIA OFFICE.

*Secretary of State for India*—Viscount Morley.  
*Under Secretary*—Master of Elibank.

The India Office in its present form dates from 1858, when an Act of Parliament was passed which directed that all the powers and duties hitherto exercised by the old East India Company, or the old Board of Control, should in future be exercised and performed by one of His Majesty's Principal Secretaries of State. At the same time there was established a council to assist the Secretary for India. It consists of not less than ten members nominated by the Secretary. The majority of these members must be men who have served or resided ten years in India, and have not left India more than ten years previous to the date of their appointment. Members hold office for ten years, and under the direction of the Secretary for India, conduct all the business transacted in London in relation to the government of India.

## THE HOME OFFICE.

*Secretary of State for Home Affairs*—Rt. Hon. Herbert Gladstone.

*Under Secretary*—Mr. C. F. G. Masterman.

The Home Department has the control of the London police force, and also the oversight of the police forces in the counties and municipal boroughs; and, generally speaking, the Department is responsible for the internal peace of the country. Prisons, convict establishments, criminal lunatic asylums, executions, and all matters connected with the post-judicial execution of the criminal law, come within the purview of the Home Office. It is also responsible for the administration of the factory code, and the laws relating to mining.

## THE WAR OFFICE.

*Secretary of State for War*—Rt. Hon. R. B. Haldane, K.C.

*Under Secretary*—Lord Lucas,

*Financial Secretary to the War Office*—Mr. F. D. Acland.

The Secretary for War has control of the army at home and abroad, and is responsible for its efficiency to the Sovereign and to Parliament. He directs all movements of troops, and all appointments made by the Commander-in-Chief are subject to his approval.

## THE ADMIRALTY.

*First Lord of the Admiralty*—Rt. Hon. Reginald McKenna.

*Secretary to the Admiralty*—Mr. T. J. Macnamara.

The Admiralty, which has charge of the Royal Navy, is administered by Lords Commissioners. The head of the Department, who is always of the Cabinet, is known as the First Lord of the Admiralty. The other Lords Commissioners or Junior Lords are officers without seats in Parliament, and are respectively at the heads of the departments into which the Admiralty is divided. The foreign movements of ships are at the instance of the Cabinet, the Foreign Office, and the Colonial Office, and it is from these authorities that the Lords of the Admiralty receive their orders. In time of war the orders go from the Cabinet. At other times the movements of vessels are directed by the Foreign Office and the Colonial Office.

## THE BOARD OF EDUCATION.

*President*—Rt. Hon. Walter Runciman.

*Secretary*—Mr. C. P. Trevelyan.

The Education Department exercises supervision over the various departments of state-aided education, and distributes the grants for education annually made by Parliament. These grants date from 1833; and in 1839 the Committee of Council for Education was established. The Vice-President was always of the House of Commons, and he was practically the Minister of Education. On the 1st of April, 1900, the Committee of Council for Education came to an end, and the powers it had exercised since 1839, enormously increased, however, since 1870, were transferred to a new State Department known as the Board of Education. The new Board was created under an Act of Parliament passed in the ordinary session of 1899. It consists of a President, the Principal Secretaries of State (these are the Secretaries for Foreign Affairs, for Colonial Affairs, for the Home Department, for War, and for India), the First Commissioner of the Treasury, and the Chancellor of the Exchequer. With the creation of this new Board there was for the first time a direct and general connection between the Government and secondary schools in England. Heretofore the Committee of Council had been concerned chiefly with elementary education, except as regards the Science and Art Department. Now, however, inspectors representing the Board of Education may visit the secondary schools, and a connection is established between these schools and the municipal councils. With the new Board of Education there was also created a Consultative Committee, which was to keep a register of teachers, and advise the Board on any matters referred to it. Universities and other bodies concerned in education are represented on the Consultative Committee. At the formation of the Balfour Government in 1902, and the retirement of Sir J. Gorst, Vice-President, the Marquis of Londonderry became the first President of the Board and Sir W. R. Anson the first Secretary.

## THE LOCAL GOVERNMENT BOARD.

*President of the Local Government Board*—Rt. Hon. John Burns.

*Parliamentary Secretary to the Local Government Board*—Mr. J. H. Lewis.

This Department dates from the reform of the Poor Law in 1834. From 1834 to 1847 its chief was not of the Ministry nor in Parliament. Up to 1871 it was occupied exclusively with the administration of the Poor Law. In 1871 it took over from the Home Department numerous duties in connection with municipal government and public health, and its title was changed to the Local Government Board.

## THE BOARD OF TRADE.

*President of the Board of Trade*—Rt. Hon. Winston Churchill.

*Parliamentary Secretary to the Board of Trade*—Mr. H. J. Tennant.

The Board of Trade is in charge of the administration of the laws relating to limited liability companies, to bankruptcy; and it also has the oversight of all matters connected with the mercantile marine, harbours, canals, railways, and street car lines and electric lighting. The Labour Bureau is a department of the Board of Trade. Its work is confined to the collection and compilation of information of all kinds relating to labour. The Board of Trade also collects information relating to trade and commerce abroad.

#### THE POST OFFICE.

*Postmaster-General*—Rt. Hon. Sydney Buxton.

The Post Office in England controls the telegraphs, as well as the home and foreign mail departments. The telegraphs have been a Government undertaking since 1869. The Post Office savings banks, of which there are over 12,000, receive sums up to a maximum of £50 in one year, or £200 in all. They also do a life insurance, and an annuity business on lines intended to meet the needs and convenience of the working classes.

#### THE BOARD OF AGRICULTURE.

*President of the Board of Agriculture*—Earl Carrington.

The principal duties of this Department are the administration of the laws for preventing and stamping out cattle disease. It supervises the landing of live cattle imported from abroad.

#### OFFICE OF PUBLIC WORKS AND BUILDINGS.

*First Commissioner of Works*—Rt. Hon. Lewis Harcourt.

This Department has the custody and supervision of all Royal Palaces and parks, and also of buildings such as the Houses of Parliament, the Palace at Westminster, the Law Courts, and the public offices at Whitehall.

#### DEPARTMENT OF THE LORD CHAMBERLAIN.

*Lord Chamberlain*—Viscount Althorp.

*Comptroller of the Household*—Sir Edward Strachey.

The Lord Chamberlain's Department has the general supervision of the Royal Household "above stairs," and also various duties towards the Sovereign and the Court. It is through the Lord Chamberlain that presentations at Court are arranged. In cities where there are royal palaces, he acts as the licenser of theatres. The Examiner of Plays is in the Department of the Lord Chamberlain. His sanction is necessary for the

production of a play in any theatre in England at which a charge for admission is made.

#### IRISH AND SCOTCH DEPARTMENTS.

*Chief Secretary for Ireland*—Rt. Hon. Augustine Birrell.  
*Secretary for Scotland*—Lord Pentland.

These Departments for Ireland and Scotland respectively exercise functions very similar to those of the Home Department in England.

#### Officers of the House of Commons.

Rt. Hon. James William Lowther, elected Speaker in June, 1905 (salary £5,000), was unanimously re-elected on the opening of the new parliament. Mr. Alfred Emmott became Deputy Speaker and Chairman of Committees of Ways and Means (salary £2,500). Sir Courtenay Peregrine Ilbert remains Clerk of the House (salary £1,800); Henry David Erskine, Sergeant-at-Arms (salary £1,000); and the Venerable A. B. O. Wilberforce, Speaker's Chaplain, with a salary of £400.

#### MINISTERIAL PENSIONS.

Pensioners are granted to ex-holders of Ministerial offices whose private fortunes are inadequate to their maintenance in their station in life. The number of these pensions, the three classes into which they are grouped according to offices held—£800, £1,500, £2,000 a year—and the conditions governing their award are determined by the Political Offices Pensions Act of 1869 (32 and 33 Victoria, c. 60)—an Act which was passed as an amendment to the Pensions Act of 1834. On the eve of the retirement of the Balfour Government—5th December, 1905—pensions of £2,000 were being paid to Lord Cross (since 1887), and to Lord George Hamilton (1892). These are first-class pensions. Second-class pensions of £1,500 a year were at that time being paid to Sir Michael Hicks-Beach, Mr. Henry Chaplin, Sir John Gorst, and Lord Balfour of Burleigh. As there can be only four pensioners in any of the three classes this class was full when the Balfour Administration was coming to an end; but Sir Michael Hicks-Beach was at this juncture made a peer. He became Lord St. Aldwyn and resigned his pension, which by warrant dated December 5th, was bestowed on Mr. Gerald Balfour, who in Mr. Arthur Balfour's Government had been President of the Local Government Board.

## THE BRITISH PARLIAMENT.

The Balfour Government resigned on the 5th of December, 1905. Sir Henry Campbell-Bannerman, who had been leader of the Liberal Opposition in the House of Commons since February, 1899, formed a Liberal Administration, and the General Election took place in January, 1906. The British House of Commons, since the Franchise and Redistribution Acts of 1884-5, consists of 670 Members. Geographically, the seats held by these Members are distributed as follows:—

England .....	465
London .....	61
Boroughs .....	165
Counties .....	234
Universities .....	5
Wales .....	30
Boroughs .....	11
Counties .....	19
Scotland .....	72
Burghs .....	31
Counties .....	39
Universities .....	2
Ireland .....	103
Boroughs .....	16
Counties .....	85

Total .....	670

Qualifications for the Parliamentary franchise are various, but generally speaking the franchise is on a democratic basis; so much so, that it is possible for every man who is a householder, and who has been in occupation for a year previous to the enrolment of electors, to vote at a Parliamentary election. There is also a lodger franchise; but in this case the franchise is based upon the rental value of the rooms. It is also

governed by the conditions of the tenancy, and but comparatively few men qualify for the lodger franchise, which, unlike the householder franchise, must be claimed every year. A recent decision in the law courts, *Kent v. Tital*, 1905, has brought into prominence the occupier franchise, which is granted to men renting rooms over which they have complete control. These men are not lodgers, and they hold the franchise on the

same basis as the householder. Tens of thousands of working men voters were added to the electoral lists in 1906 as a result of this decision.

The electoral rolls are compiled by the local overseers of the poor, as most of the franchises are based on the payment of the poor rate. The rolls are then gone over in open court by the revising barristers, who hold their sessions every year, as a new list of voters is compiled each year. In England the new register comes into effect on December 1st.

Members of the House of Commons receive neither salaries nor indemnities. There are no mileage allowances or railway privileges, and Members do not enjoy the privilege of franking their correspondence through the mails.

Parliamentary candidates pay all the costs of elections, including the returning officer's fees and expenses. Deposits to cover these outlays must be made to the returning officer before a candidate can go to the poll. In the counties, the High Sheriffs, or their deputies, act as returning officers. In the self-contained boroughs—that is, in the boroughs which return Members, and are not part of a county division—the Mayor acts as returning officer.

Elections are not held all on one day. A general election usually extends over a month, and, if an elector is qualified in several constituencies, he can vote in each. Only freeholder voters can exercise the franchise in this way, as residence is not a necessary qualification for a freehold vote.

At the general election in January, 1906, the questions at issue were Fiscal Reform (Mr. Chamberlain's proposal to return to Protection); Chinese Labour on the Rand, which arose on the Balfour-Milner ordinance of 1904; and Elementary Education, or rather that aspect of this subject which affected the relationship of the Established Church and the Roman Catholic Church to public elementary schools which are maintained entirely by local and Imperial taxation.

On August 11th, 1905—that is, on the last day of the last session of the Parliament elected in September and October, 1900—the political constitution of the House of Commons stood as follows:—

Conservatives .....	312
Liberal Unionists .....	58
Liberals .....	217
Irish Nationalists .....	82
Speaker .....	1
Total .....	670
Unionist Majority .....	71

After the General Election of 1900, the Salisbury Administration had a majority over Liberals and Irish Nationalists of 134.

As the result of the General Election in January, 1906, the Campbell-Bannerman Government was continued in office, and began the Parliamentary session with a majority of 241 over the combined vote of the Conservatives, Liberal Unionists, and Irish Nationalist Members.

Mr. Speaker Lowther was of the Tory Party when he was elected to the Chair in 1905. As has now long been the usage at Westminster, he was re-elected at the opening of the new Parliament. Counting the Speaker as still of the Tory party, the political constitution of the House of Commons at the beginning of the session of 1906 was made up thus:—

Liberals .....	372
Labour .....	57
Conservatives .....	130
Liberal-Unionists .....	28
Irish Nationalists .....	83
Total .....	670

Not since the beginnings of modern Liberalism at the time of the American Revolution has the Liberal party been supported by so large a majority in the House of Commons. Between the 1st of January, 1903, and November 4th, 1909, the date at which the Lloyd George Budget was read a third time in the House of Commons, there were twelve bye-elections. The Unionists gained a seat in Central Glasgow, and also a seat at Bermondsey. These gains brought up their strength in the House of Commons, on November 4th, to 166, as compared with 158, which was the strength of the Unionist Opposition at the opening of the first session of the Parliament that was elected in January and February, 1906.

The Labour Members, who made some gains in strength between 1906 and November, 1909, are divided into three groups:—(1) Fifteen miners' representatives, (2) fifteen Liberal Labour Members, and (3) thirty-one members of the Independent Labour party. Members of the first group (the miners' representatives) have been of the House of Commons since 1868, when the Right Hon. Thomas Burt and the late Mr. Alexander Macdonald (both of them miners' trade union officials) were returned.

The second group is composed of Liberals who are closely associated with the Labour movement; while the third group represents the Independent Labour Party, which was organized in 1901, and was represented in the last House of Commons by Mr. Keir Hardie, then the leader of the movement, and three other members. The miners' members and the Liberal-Labour members sit on the Government Benches, answer to the Government whips, and act generally with the Government.

The Independent Labour group sit with the Nationalist Members on the Opposition side of the House of Commons. This group has its own whips, and, while usually voting with the Government, its members hold themselves at arm's length from it, and keep aloof from Liberal organizations in and out of Parliament. At bye-elections since Jan. 1906, this group has opposed Liberal candidates in working-class constituencies. The first loss sustained by the Liberals was at Cockermouth on Aug. 3, 1906, and was due to the nomination of a third candidate by the Labor Party. At bye-elections at Jarrow (July 4) and in the Colne Valley Division of Yorkshire (July 18, 1906) seats formerly held by Liberals were captured by Independent Labor men from official Liberal candidates. It was these gains that brought the number of Independent Labor Members up to 31. This new group advocates old age pensions, adult suffrage, and the establishment of an eight-hours day by legislative enactment, and, broadly speaking, it is representative of the Socialist movement in England in its more immediately practical forms.

#### THE HOUSE OF LORDS.

Only in so far as concerns Scotland is the House of Lords affected by a general election. After a dissolution of Parliament, the Scotch Lords meet at Holyrood Palace, and in accordance with the terms of the Act of Union elect sixteen peers to represent them in the House of Lords. At the election on the 30th of January, 1906, at which the Duke of Montrose (Lord Clerk) presided, the following Peers were chosen:—

Earl of Mar.	Viscount Falkland.
Earl of Morton.	Baron Saltoun.
Earl of Mar and Kellie	Baron Sinclair.
Earl of Haddington.	Baron Torphichen.
Earl of Lauderdale.	Baron Balfour of Burleigh.
Earl of Leven and Melville.	Baron Belhaven and Stenton.
Earl of Carnwath.	Baron Borthwick.
Earl of Northesk.	
Earl of Dundonald.	

All these Peers are Conservatives, and the only change was the substitution of Lord Borthwick for Lord Forbes, who was of the last Parliament, but declined re-election. The Irish Peers, who number twenty-eight, are elected for life. They are all Conservatives.\*

At the time the Balfour Government went out of office in December, 1905, there were 612 Peers. Of these, 637 were hereditary Peers of the United Kingdom, 5 were life Peers (the law lords), 26 were Archbishops and Bishops, 16 were Scotch representative Peers, and 28 were Irish representative Peers. On the formation of the Campbell-Bannerman Government Sir E. T. Reid went up to the House of Lords as Lord Chancellor, with the title of Baron Loreburn. In January and February, 1906, there were other creations of Peers; and on the 28th of June, 1906, at the anniversary of the King's Birthday, six new Peers were created. In all since the accession to office in 1905 of the Liberal Government, 24 new Peers have been created, all of whom are Liberals. Two Liberal Peers went over to the Opposition when the Budget of 1909 was before Parliament. At the end of 1909 the supporters of the Liberal Government in the House of Lords did not number more than 92.

\* In January, 1908, Lord Curzon was elected a representative Irish Peer in the place of the late Lord Boyne.

## PATENTS IN CANADA.

The Patent Office is a Branch of the Department of Agriculture, and the Minister of Agriculture for the time being is the Commissioner of Patents.

Any person who has invented any new and useful art, machine, manufacture or composition of matter, or any new and useful improvement in any art, machine, manufacture or composition of matter, which was not known or used by any other person before his invention thereof, and which has not been in public use or sale with the consent or allowance of the inventor thereof for more than one year previously to his application for patent therefor in Canada, may, on a petition to that effect, presented to the Commissioner, and on compliance with the other requirements of the Act, obtain a patent granting to such person an exclusive property in such invention.

No patent shall issue for an invention which has an illicit object in view, or for any mere scientific principle or abstract theorem.

Any person who has invented any improvement on any patented invention, may obtain a patent for such improvement; but he shall not thereby obtain the right of vending or using the original invention, nor shall the patent for the original invention confer the right of vending or using the patented improvement.

The Patentee or his legal representatives must, within two years from the date of the patent or an authorized extension thereof, commence and continuously carry on in Canada the construction or manufacture of the invention patented in such manner that any person desiring to use it may obtain it, or cause it to be made for him at a reasonable price at some manufactory or establishment for making or constructing it in Canada. If after twelve months from the granting of the patent, or an authorized extension thereof, the Patentee or his legal representatives imports, or causes to be imported, into Canada the invention for which the patent is granted, such patent shall be void as to the interest of the person so importing.

The Commissioner, upon satisfactory cause being shown, may grant to the Patentee or his legal represen-

tatives an extension for a further term not exceeding one year beyond the twelve months during which he may import into Canada the invention; such application must be made within three months before the expiry of the said twelve months.

An Inventor obtaining a patent for his invention in a foreign country before obtaining a Canadian patent, may obtain the latter if same be applied for within one year from the date of the issue of the first foreign patent; and if within three months after the date of issue of a foreign patent the Inventor gives notice to the Commissioner of his intention to apply for a Canadian Patent for such invention, then no other person having commenced to manufacture the same device in Canada during such period of one year shall be entitled to continue the manufacture of the same after the Canadian patent has been obtained without the consent or allowance of the inventor.

Upon application for a patent, or within six months after issue of the patent, the Commissioner may order that, instead of the above provisions as to manufacture in Canada within two years, such patent shall be subject to the following conditions:—Any person, while the patent continues in force, may apply to the Commissioner for a license to make, construct, use and sell the patented invention, and if the Commissioner is satisfied that the reasonable requirements of the public have not been satisfied by reason of the neglect or refusal of the Patentee or his legal representatives to make, construct, use or sell the invention, or to grant licenses for so doing to others on reasonable terms, he may make an order under his hand and the seal of the Patent Office requiring the owner of the patent to grant a license to the person applying therefor upon such terms as to royalties, etc., as the Commissioner deems just, and if the Commissioner makes such an order, and the owner of the Patent refuses or neglects to comply therewith within three Calendar months after a copy of it is addressed to him or to his duly authorized agent, the patent and all rights and privileges thereby granted shall cease and determine.

## PATENTS PROMPTLY SECURED

We solicit the business of Manufacturers, Engineers and others who realize the advisability of having their Patent business transacted by Experts. Preliminary advice free. Charges moderate. Our Inventor's Adviser sent upon request. Marion & Marion, New York Life Bldg. Montreal; and Washington, D.C., U.S.A.

An application for a patent is made by a petition wherein the title or name of the invention is set forth, and in which the applicant declares that he is the inventor of the invention, as well as placing his domicile at some known and specified place in Canada, and such petition must be verified by affidavit or affirmation of the applicant that he believes he is the inventor of the said invention, and that the statements in the petition are true. Should the inventor be dead, such oath or affirmation may be made by his assignee or legal representative, and with the petition must be filed a specification (in duplicate) of the invention which shall correctly and fully describe the mode of operating same, the contrivances and things claimed as new, and for the use of which exclusive property and privilege is claimed, and shall bear the name of the place where, and date when, made, and shall be signed by the applicant and by two witnesses. In the case of a machine, the specification shall fully explain the principle and several modes in which it is intended to apply, and work out the same; and where the invention admits of illustration by means of drawings, the applicant shall also send in drawings in duplicate, showing clearly all parts of the invention. In all cases in which the invention admits of representation by model, the applicant, if required by the Commissioner, shall also furnish a model of convenient size; and when the invention is a composition of matter, the applicant shall also, on like request, furnish specimens of the ingredients and composition sufficient in quantity for the purpose of experiment.

In the case of conflicting applications for any patent, provision is made for submitting same to the arbitration of three skilled persons, two of whom shall be chosen by the applicants and the third by the Commissioner, and the decision or award in writing of such arbitrators, or of any two of them, shall be final.

A patent is granted for a term of eighteen years, but at the time of the application it is optional for the applicant to pay the fee for the term of six years, or twelve years only, as desired, and, unless further renewal payments are made, the patent expires on such dates respectively.

The patent may be assigned, but unless same duly registered in the Patent Office shall be null and void as against any subsequent assignee.

Every person who, without the consent in writing of the Patentee, makes, constructs, or puts into practice any invention for which a patent has been obtained, or who procures such invention from any person not authorized by the patentee, and who uses it, shall be liable to the patentee, or his legal representative, in damages.

Any action for infringement of the patent may be brought in any Court of record having jurisdiction to the amount of the damages claimed in the Province in which the infringement is alleged to have taken place. Proceedings may also be taken in the Exchequer Court, which has jurisdiction over the entire Dominion of Canada.

Every patentee shall stamp or engrave on each patented article sold or offered for sale by him the year of the date of the patent of such article, thus:—

"Patented 1898," or as the case may be; or when, from the nature of the article, this cannot be done, then by affixing to it, or to every package where one or more of such articles is or are enclosed, a label marked with a like notice. For violation of this provision there is imposed a penalty not exceeding \$100.00, and, in default of payment thereof, imprisonment for a term not exceeding two months.

Falsely marking an article as patented with the intent of counterfeiting or imitating the stamp, mark, or device of the patent of another person, or of deceiving the public, or offering for sale as patented any article not patented in Canada, is a misdemeanour, and for which there is a fine not exceeding \$200.00, or imprisonment for a term not exceeding three months, or both.

Any intending applicant for a patent who has not yet perfected his invention, and is in fear of being despoiled of his idea, may file in the Patent Office a description of his invention so far, with or without plans, of his own will, and the Commissioner, on payment of the prescribed fee, shall cause the said document, which shall be called a caveat, to be preserved in secrecy, and, if application is made by any other person for a patent interfering in any way therewith, the Commissioner shall forthwith give notice, by mail, of such application to the person filing such caveat, who shall, within three months thereafter, if he wishes to avail himself of the caveat, file his petition, and take the other steps necessary on an application for a patent. The application for the patent must be made within one year from filing of caveat, otherwise the Commissioner is relieved from the obligation of giving notice.

The Government of Canada may, at any time, use any patented invention by paying to the Patentee such sum as the Commissioner reports to be a reasonable compensation for the use thereof.

All specifications, drawings, models, disclaimers, judgments, and other papers, except caveats, shall be open to the inspection of the public at the Patent Office, under such regulations as are adopted in that behalf.

The following fees are payable:—Full fee on patent for 18 years, \$60.00; partial fee for 12 years, \$40.00; partial fee for 6 years, \$20.00; for further term of 12 years, \$40.00; for further term of 6 years, \$20.00; on filing caveat, \$5.00; on registering assignment patent, \$2.00; for copy of patent, with specification, \$4.00.

The disbursements for filing an application in Great Britain are \$25.00; France, \$20.00; Germany, \$5.00, and \$7.50 before issuing patent; Australia, \$20; Russia, \$75.00; British India, \$20.00. The German and French patents cover not only Germany and France but also their colonies. The Russian patent extends to all of the Russian possessions.

The disbursements for filing an application in the Australian States, namely, Queensland, Victoria, New South Wales, South Australia, Western Australia and Tasmania are \$5.00 on filing of the application, \$10.00 on allowance of same and \$25.00 for preparation of the sealing of patent; New Zealand, \$20.00; Mexico, \$75.00; Natal, \$50.00; Japan, \$75.00; Jamaica, \$150.00.

## SOME FACTS ABOUT CANADA.

The earliest official records show that John and Sebastian Cabot, sailing under commission from King Henry VII of England, landed in 1497 on that part of the present Dominion of Canada known as Cape Breton in Nova Scotia.

Gaspard Cortereal discovered and named the Labrador coast in 1500. Jacques Cartier, of St. Malo, France, acting under the authority and patronage of Francis I of France, discovered, in 1534, those portions of the Dominion of Canada now called New Brunswick, Prince Edward Island, and Quebec, and on his return to France presented the King with the first official record there is of the existence of these regions.

Captain Cook in 1778 gave the first authentic record of the discovery of Vancouver Island and the Pacific Ocean coast of the present Dominion.

Profisher, Hudson, Parry, Franklin, Richardson, Back, Mackenzie, Simpson, Vancouver and others, between 1756 and 1847 explored and named the north and north-west coasts of the Dominion.

Colonization was practically begun in 1605-8. In 1605 Baron de Pouturincourt established Port Royal (now Annapolis Royal, in Nova Scotia), the first actual settlement by Europeans. In 1608 Champlain founded Quebec.

## THE IMPERIAL SERVICE ORDER.

This civil order of distinction was instituted by King Edward VII, August 8, 1902, to more fully recognize the faithful and meritorious services rendered by members of the Civil Services of the various parts of the Empire. The following is a synopsis of the statutes relating thereto:—

- (a) Name.—The Imperial Service Order.
- (b) Consists of the Sovereign, the Prince of Wales, and such Companions as may be appointed.
- (c) Only members of the administrative or clerical branches of Civil Services are eligible to Companionships.
- (d) Number of Companions.—Limited to 425, of whom 250 for the home Civil Service and 175 for Civil Services of Colonies and Protectorates.
- (e) Eligibility.—At least twenty-five years' meritorious service. In Colonies or Protectorates recognized as unhealthy, it is reduced to sixteen years. The periods are not compulsory in special cases of *eminently* meritorious service.
- (f) Description of decoration.—A badge or medallion of gold and enamel, bearing on one side the Imperial and Royal Cypher, and on the reverse "For Faithful Service," both in dark blue enamel on a plaque or shield of Gold, surrounded by a wreath of laurel, surmounted by the Imperial Crown.
- (g) Decoration to be worn on left breast suspended by a ribbon one inch wide.
- (h) Names of those upon whom the decoration is conferred will be published in the *London Gazette*.
- (i) Companions have the privilege of adding the letters "I.S.O." after their names.
- (j) Members of this order are not deprived of eligibility to other orders of knighthood, and *vice versa*.

## THE IMPERIAL SERVICE MEDAL.

It is also provided that members not eligible for companionships in the Imperial Service Order may, on retirement after service of twenty-five years or sixteen years, as above explained, receive the "Imperial Service Medal," which is of silver and of a design similar to that of the badge of Companions of the Imperial Service Order. ## TREATMENT OF JUVENILE OFFENDERS.

A novel and in many ways an interesting piece of experimental legislation is enacted by recent Dominion legislation, described as an act respecting juvenile delinquents. The preamble recites the inexpediency that youthful offenders should be classed or dealt with as ordinary criminals, the welfare of the community demanding that they should on the contrary be guarded against association with crime and criminals and should be subjected to such wise care, treatment and control as will tend to check their evil tendencies and to strengthen their better instincts. The act will operate only when as proclamations declaring it in force in any province, city, town or other portion of a province are issued and published in the Canada Gazette. It contemplates the constitution of special juvenile courts before whom alone children apparently or actually under 16 may be charged with offences. Where the act is adopted children charged under it will be detained pending trial in special detention homes or places apart from adult prisoners; they will also be tried separately in private, and no publicity may be given to the proceedings without special leave of the judge. Probation officers will be appointed whose duty it will be to make such investigations as may be required by the court to be present in court to represent the interests of the child when the case is heard, to furnish the court such information and assistance as may be required and to take charge of any child before or after trial as directed.—*Canada Year Book*.

# THE LAW OF INTESTATES ESTATES.

## DESCENT AND DISTRIBUTION OF PROPERTY.

As to all persons who died before the first day of January, 1852, the rules of descent are substantially the same as in England at that date.

Real estate of persons who died intestate (i.e., who have left no will) after that date and prior to the first day of July, 1886, descends first to lineal descendants and those claiming by or under them *per stirpes*, second to father, third to mother, and fourth to collateral relatives, subject to certain rules and regulations prescribed in the statute.

The surplus personal estate of intestates who died prior to the first day of July, 1886, is, after the expiration of one full year from the death of the intestate, to be distributed in the following manner: One-third shall go to the widow of the intestate, and the residue in equal proportions to his children, or if dead, to their lineal descendants; if there are no children or legal representatives subsisting, then where the net value of the real and personal estate does not exceed \$1,000, same belongs absolutely to the widow, and as to any excess over and above said amount after payments of debts, etc., the widow takes a moiety, and the other moiety goes to the next of kindred, in equal degree, and their representatives; if no widow, all to children; if neither widow nor children, all to next of kin, in equal degree, and their representatives. But no representation is admitted among collaterals further than children of intestate's brothers and sisters.

All real and personal property of persons dying on or after the 1st day of July, 1886, devolves upon and becomes vested in the legal personal representatives for the period of a year (which may be extended in a prescribed manner) subject to the payment of debts and to the effectual dispositions of deceased. The real and personal property of a married woman, in respect of which she has died intestate, shall be distributed as follows: One-third to her husband, if she leaves issue, and one-half if she leaves none, and subject thereto, shall go as if her husband had predeceased her. The realty and personalty comprised in a residuary devise or bequest is (unless the will otherwise directs) applicable ratably according to their respective value to the payment of the debts.

## THE SUCCESSION DUTY ACT.

R.S.O. (1897), CHAP. 24 AND AMENDMENTS THERETO.

This Act applies to the Estates of all persons dying after 1st July, 1892.

The word "property" includes real and personal property of every description and every estate or interest therein capable of being devised or bequeathed by will or of passing on the death of the owner to his heirs or personal representatives.

The word "child" shall be deemed to include any lawful child of the deceased or any lineal descendant of such child or any person or persons adopted before the age of twelve years by the deceased as his child or children or any infant to whom the deceased for not less than ten years immediately prior to his death stood in the acknowledged relationship of a parent or any lineal descendant of such adopted child as aforesaid born in lawful wedlock.

The phrase "aggregate value" means the value of the property after the debts, encumbrances or other allowances (set out in the act) are deducted therefrom and shall include property situate outside of the Province as well as within.

"Dutiable value" means the value of the property after the debts, encumbrances or other allowances are deducted therefrom.

In determining the dutiable value of any property the value shall be taken as at the date of the death of the deceased, and allowance shall be made for reasonable funeral expenses and for his debts and encumbrances, but an allowance shall not be made (a) for debts incurred by the deceased or encumbrances created by a disposition made by the deceased unless such debts or encumbrances were incurred or created *bona fide* for full consideration in money or money's worth wholly for the deceased's own use and benefit and take effect out of his interest. (b) For any debt in respect whereof there is a right to reimbursement from any other estate or person. (c) More than once for the same debt or encumbrance charged upon different portions of the estate.

No duty shall be leviable:—

(1) On any estate the aggregate value of which does not exceed \$10,000. (2) On property devised or bequeathed for religious, charitable or educational purposes to be carried on by a corporation or persons domiciled within the Province of Ontario. (3) On property passing under a will intestacy or otherwise to or for the use of a father, mother, husband, wife, child, daughter-in-law or son-in-law of the deceased, where the aggregate value of the property as defined by this Act passing to the persons mentioned does not exceed \$50,000.

Save as aforesaid the following property shall be subject to a succession duty:—

(a) All property situate within this Province and any interest therein or income therefrom, whether the deceased person owning or entitled thereto was domiciled in Ontario at the time of his death or was domiciled elsewhere, and all moveable or personal property locally situate out of this Province and any interest therein where the owner was domiciled in this Province at the time of his death, whether such property passes by will or intestacy.

(b) All property situate as aforesaid or any interest therein or income therefrom, which shall be voluntarily transferred by deed, grant, bargain, sale or gift made in contemplation of the death of the grantor, bargainor, vendor or donor, or made or intended to take effect in possession or enjoyment after such death to any person in trust or otherwise or by reason whereof any person shall become beneficially entitled in possession or expectancy to any property or the income thereof.

(c) Any property taken as a *donatio mortis causa* made by any person dying, on or after the 7th April, 1896, or taken under a disposition made by any person so dying purporting to operate as an immediate gift, during life, whether by transfer, delivery, declaration of trust, or otherwise which shall not have been *bona fide* made twelve months before death of deceased.

(d) Any property which a person dying on or after the 7th day of April, 1896, having been absolutely entitled thereto has caused or may cause to be transferred to or vested in himself, and any other person jointly whether by disposition or otherwise so that the beneficial interest therein or in some part thereof passes or accrues by survivorship on his death to such other person, including also any purchase or investment effected by the person who was absolutely entitled to the property either by himself alone or in concert or by arrangement with any other person.

(e) Any property passing under any past or future settlement including any trust whether in writing or otherwise, and whether for valuable consideration or not made by any person dying on or after 7th April, 1896, by deed or other instrument not taking effect as a will whereby any interest in such property or the proceeds thereof for life or any other period is reserved to the settlor, or whereby the settlor may have reserved the right to exercise any power to restore to himself the absolute interest in such property.

(f) Any annuity or other interest purchased or provided by any person dying on or after 7th April, 1896, either by himself alone or in concert with any other person to the extent of the beneficial interest arising by survivorship or otherwise on the death of the deceased.

(g) Any interest in dower or by the courtesy in any land of the person so dying to which the wife or husband of the deceased becomes entitled on the decease of such person.

Where the aggregate value of the deceased's property exceeds \$50,000, and passes in manner aforesaid either in whole or in part to or for the benefit of the father, mother, husband, wife, child, son-in-law or daughter-in-law of the deceased, the same or so much thereof as so passes (as the case may be) shall be subject to a duty at the rate and on the scale as follows:—

(a) Where the said aggregate value exceeds \$50,000 and does not exceed \$75,000, 1 per cent.

(b) Exceeds \$75,000 and does not exceed \$100,000, 2 per cent.

(c) Exceeds \$100,000 and does not exceed \$150,000, 3 per cent.

(d) Exceeds \$150,000 and does not exceed \$200,000, 4 per cent.

(e) Exceeds \$200,000, 5 per cent.

Provided where the value of any dutiable property exceeds \$100,000 and the amount passing in manner aforesaid to any one person exceeds the amount hereinafter mentioned, a further duty shall be paid on the amount so passing in addition to the rates in the foregoing paragraph mentioned as follows:—

- (a) Where the whole amount so passing to one person exceeds \$100,000 and does not exceed \$200,000, 1 per cent.
- (b) Exceeds \$200,000 and does not exceed \$400,000, 1½ per cent.
- (c) Exceeds \$400,000 and does not exceed \$600,000, 2 per cent.
- (d) Exceeds \$600,000 and does not exceed \$800,000, 2½ per cent.
- (e) Exceeds \$800,000, 3 per cent.

Where the aggregate value of the property of the deceased exceeds \$10,000, so much thereof as passes to or for the benefit of the grandfather or grandmother or any other lineal ancestor of the deceased, except the father and mother, or to any brother or sister of the deceased, or to any descendant of such brother or sister, or to a brother or sister of the father or mother of the deceased, or to any descendant of such last mentioned brother or sister shall be subject to a duty of \$5 for every \$100 of the value.

Provided that where the value of any dutiable property exceeds \$50,000, and the amount passing in manner aforesaid to any one person mentioned in the next preceding subsection, except the father and mother, exceeds the amount hereinafter mentioned, a further duty shall be paid on the amount so passing in addition to the duty in the next preceding subsection mentioned as follows:—

- (a) Where the whole amount so passing to one person exceeds \$50,000 and does not exceed \$100,000, 1 per cent.
- (b) Exceeds \$100,000 and does not exceed \$150,000, 1½ per cent.
- (c) Exceeds \$150,000 and does not exceed \$200,000, 2 per cent.
- (d) Exceeds \$200,000 and does not exceed \$250,000, 2½ per cent.
- (e) Exceeds \$250,000 and does not exceed \$300,000, 3 per cent.
- (f) Exceeds \$300,000 and does not exceed \$350,000, 3½ per cent.
- (g) Exceeds \$350,000 and does not exceed \$400,000, 4 per cent.
- (h) Exceeds \$400,000 and does not exceed \$450,000, 4½ per cent.
- (i) Exceeds \$450,000, 5 per cent.

Where the aggregate value of the property of the deceased exceeds \$10,000, and any part thereof passes to or for the benefit of any person in any other degree of collateral consanguinity to the deceased than is above described, or to or for the benefit of any stranger in blood to the deceased, save as hereinbefore provided for the same, shall be subject to a duty of \$10 for every \$100 of the value.

Any portion of an estate where the deceased at time of death is domiciled in Ontario, and which is brought into Ontario by executors or administrators to administer shall be liable to duty, but if any succession duty or tax has been paid thereon elsewhere than in Ontario, and such duty or tax so collected is greater than the duty payable in this Province no duty shall be payable thereon; but if the duty so paid elsewhere is less than the Ontario duty then the difference must be paid.

Where any duty or tax shall have been paid by the estate upon any moveable or personal property locally situate outside of Ontario or any interest therein, an allowance shall be made for any outside duty paid thereon; the difference, if any, between the outside and Ontario duty shall be likewise paid. Provided the above allowances and differences are only made with

respect to any country, state or British Province or possession where a similar allowance is made for the duty or tax paid under this Act on property in Ontario passing on the death of any person domiciled in any such outside country.

Should an executor or administrator, in order to escape payment of Succession Duty, distribute any part of said estate without bringing the same into Ontario, such executor or administrator shall be liable, personally, to pay His Majesty the amount of duty as if such assets had been brought within Ontario, provided that this shall not apply to payments made to persons domiciled out of Ontario from assets situate without the Province.

No foreign executor or administrator shall assign or transfer any stocks or shares in Ontario standing in the name of a deceased person, or in trust for him, which are liable to pay Succession Duty until such duty is paid or security given therefore as provided, and any corporation allowing a transfer of any stocks or shares contrary to this provision shall be liable to pay the duty.

An executor or administrator applying for letters probate or administration to the estate of a deceased person shall, before the issue of such letters to him, make and file with the Surrogate Registrar a full and correct statement under oath, giving (a) full itemized inventory of all the property of the deceased and the market value thereof. (b) The several persons to whom the same will pass under the will or intestacy and the degree of relationship in which they stand to the deceased; and such executor or administrator shall, before the issue of such letters probate, deliver to the Surrogate Registrar a bond, in a penal sum equal to ten per cent. of the sworn value of such property liable to Succession Duty, executed by himself and two sureties to be approved of by the Registrar conditioned for the due payment of any duty to which the property may be found liable.

Should the Treasurer of Ontario be not satisfied with the value so sworn to or with the correctness of the Inventory, he shall direct the Sheriff of the County or City to make a valuation and appraise the said property, and provision is made for an appeal from such appraisal to the Surrogate Judge of the County within thirty days after making and filing such assessment. The duties imposed by the Act unless otherwise provided for shall be due and payable at the death of the deceased or within eighteen months thereafter. Should they not then be paid interest at 5 per cent. per annum from death of deceased shall be charged and collected, and same shall be a lien upon the property in respect to which they are payable until fully paid. Provision is made however as regards postponement of the duty payable on any future or contingent estates, income or interest, with the consent of the Provincial Treasurer in writing, until such estate, income or interest comes into possession. The Treasurer of the Province, on being satisfied that the full amount of Succession Duty has been or will be paid in respect of an estate or in part thereof shall, if required, give to the person accounting for the duty a certificate which shall discharge from any further claim the property shown by the certificate to form the estate.

An administrator, executor or trustee having in charge or trust any estate, legacy or property subject to duty shall deduct same therefrom or collect the duty thereon from the person entitled to such property, and shall not deliver any property subject to duty to any person until he has collected the duty thereon.

### Admiralty Division.

In pursuance of the powers given by "The Colonial Courts of Admiralty Act, 1890," the Exchequer Court of Canada is declared a Colonial Court of Admiralty. (See R. S. O. (1906), Chap. 141.)

The Exchequer Court has the jurisdiction conferred by the Colonial Courts of Admiralty Act throughout Canada and the waters thereof, whether tidal or non-tidal, and may enforce all rights and remedies in all matters (including cases of contract and tort and proceedings *in rem* and *in personam*) arising out of or connected with navigation, shipping, trade or commerce, which may be had or enforced in any Colonial Court of Admiralty under the said Act.

Admiralty business may be transacted at the office of the Exchequer Court at Ottawa, or at the local registry offices.

There are Admiralty Districts presided over by Local Judges in Admiralty as follows:—

(a) The Province of Ontario under the name of the Toronto Admiralty District with a Registry at the City of Toronto.

(b) The Province of Quebec with Registry at the City of Quebec.

(c) The Province of Nova Scotia with Registry at the City of Halifax.

(d) The Province of New Brunswick with Registry at the City of St. John.

(e) The Province of British Columbia with Registry at the City of Victoria.

(f) The Province of Prince Edward Island with Registry at the City of Charlottetown.

(g) The Yukon Territory with Registry at the City of Dawson.

### OFFICERS OF THE TORONTO ADMIRALTY DISTRICT.

Local Judge, Thomas Hodgins, K.C.

Registrar, John Bruce.

Marshal, R. S. Stonehouse.

Local Judges of the Admiralty are within their Admiralty District ranked as Judges of the Exchequer Court.

### The Supreme Court of Judicature for Ontario.

COURT OF APPEAL FOR ONTARIO.—Constituted for the hearing of appeals from the High Court of Justice, and from the County Courts. From the judgment of this Court an appeal lies, at the option of litigants, either to the Supreme Court of the Dominion, or to His Majesty in Privy Council, in cases over £1,000, or where annual rent, fee, or future rights of any amount, are affected. The Judges of this Court may be placed on the rota for the trial of Election petitions, with the Justices of the High Court, who as *ex-officio* Judges of this Court, choose from their number a Judge or Judges to sit in Appeal in case of there being a vacancy in this Court, or if, from illness or some other cause, one of the Judges of the Court is unable to be present, or is under any legal disqualification to hear an appeal. Sittings are held at such times and for such periods as the Judges shall, from time to time, deem necessary or convenient for the speedy dispatch of business, the five regular sittings being the first Tuesday in March and September, and the second Tuesday in January, May and November, due notice of the time of holding of further sittings being given. If required, a second division of the Court, consisting of Judges of the High Court, can also sit for the disposal of business.

Chief Justice of Ontario—Hon. Sir Charles Moss (\$8,000). Justices of Appeal—Hon. F. Osler, Hon. J. T. Garrow, Hon. J. J. MacLaren, Hon. R. M. Meredith (\$7,000 each). Registrar—N. F. Paterson, K.C. Asst. Registrar—Charles S. Grant. Usher and Librarian—E. Oliver.

### High Court of Justice for Ontario.

The jurisdiction of this Court extends to all manner of actions and causes, criminal and civil, real, personal and mixed, within Ontario, and it may proceed in such, by such process and course as are provided by law, and as shall tend with justice and despatch to determine the same; and may and shall hear and determine all issues of law, and also (with or without a jury as provided by law) determine all issues of fact, and give judgment, and award execution thereon, as might on the 5th day of December, 1895, be done in His Majesty's Court of King's Bench, Common Bench or in matters which relate to the King's Revenue (including the condemnation of contraband or smuggled goods) as may be done by His Majesty's Court of Exchequer in England, and also the like jurisdiction as the Court of Chancery in England, on the 4th day of March, 1837, in cases of fraud, accident, trusts, executors, administrators

co-partnerships, account, mortgages, awards, dower, infants, idiots, lunatics and their estates, waste, specific performance, discovery, and to prevent multiplicity of suits, and may decree the issue, repeal, or voidance of letters patent, and generally the like powers which the Court of Chancery in England possessed on the 10th day of June, 1857, to administer justice in all cases in which there is no adequate remedy at law.

Divisional Court sittings are held on the first Monday of each month (except vacation) to dispose of such matters as may properly be brought before a Divisional Court.

**LAW CIRCUITS.—Sittings for Hearing of Actions.**—In the Counties of York, Wentworth, Carleton and Middlesex, there is held an additional such Court every winter; and in the County of York there is held another such Court before the first day of July. Whenever in any year the Judges may determine that it is not necessary to hold the latter such sittings may be dispensed with. The sittings for hearing of actions may, in the discretion of the Judges, be held separate and apart from the Courts of Oyer and Terminer, and General Gaol Delivery. In the City of Toronto the sittings for trial of actions without a jury are now practically continuous from 15th September to the 1st of next July, excepting Christmas vacation, and action can be set down as soon as ready for trial.

The Courts in each Circuit are presided over by the Chancellor or by a retired or present Justice of the High Court or of the Court of Appeal, or by a Judge of a County Court, or by some one of His Majesty's Counsel learned in the law, requested by the Chancellor or one of the Justices to act in that behalf.

**WEEKLY SITTINGS.**—A Judge sits at Osgoode Hall every week except vacation for the purpose of disposing of all business except trials which may be transacted by a single Judge. Chamber business on Tuesdays and Fridays. Court business on Mondays, Wednesdays and Thursdays. Sittings will be held at Ottawa and London respectively at least one day in each week (except vacation) to dispose of certain matters which can be determined by a single Judge. The Judges have now power on petition to constitute monthly or semi-monthly sittings in lieu of weekly.

**CHAMBERS.**—Chambers are held each day for such business relating to actions as may be transacted by a single Judge out of Court. The Master in Chambers is empowered to obtain the assistance of any Official Referee to sit with or for him.

**LONG VACATION** extends from the 1st of July to the 31st of August, both inclusive. There is also a vacation from the 24th December to 6th January, both inclusive.

**COURTS FOR THE TRIAL OF CONTESTED ELECTIONS.**—The nature of these courts is sufficiently indicated in their title. In respect to elections for the House of Commons of Canada, the Superior Courts by one of their Judges appointed in that behalf, are invested with special jurisdiction for the trial of contested elections, and appeals lie to the Supreme Court at Ottawa. In respect to elections for the Local Legislature of Ontario, the Judges of the Supreme Court of Judicature meet annually on or before the day next preceding the Christmas Vacation, and severally elect, by a majority of votes, a Judge from their respective Courts or Division to be placed on the rota for the trial of election petitions during the ensuing year. In the case of death or the illness of a Judge so chosen, the Court of which he is a member meet and elect another Judge. Trials involving corrupt practices are presided over by two Judges, otherwise a single Judge presides, and an appeal lies to the Court of Appeal of the Province.

## FISHERY LAWS—Continued.

## Synopsis of Fishery Laws.

Net fishing of any kind is prohibited in public inland waters, except under Leases or Licenses. The size of nets is regulated so as to prevent the killing of young fish. Nets cannot be set or seines used so as to bar channels or bays. A general weekly Close-time is provided in addition to special close seasons. The use of Explosive or Poisonous substances for catching or killing fish is illegal. The use of fire-arms for killing fish is prohibited. Mill-dams must be provided with efficient fish passes.

The above enactments and close seasons are supplemented in special cases, under authority of the *Dominion Fisheries Act* (Chap. 45 R. S.), by a total prohibition of fishing for stated periods. All communications relating to Fisheries should be addressed : Department of Marine and Fisheries, Ottawa.

## Collegiate Institutes and High Schools.

Each of the High Schools (which form the intermediate link between the Public Schools and the Universities) is managed by a Board of Trustees, appointed jointly by the County and Town Councils. In cities the Trustees may be appointed by the City Councils, or may be elected by general vote of qualified electors. Separate School Boards of Trustees have also the right to appoint trustees. The Principal of the High School or Collegiate Institute must be a graduate of a British or Colonial University, and certified as experienced in teaching. Assistants must also have received the prescribed training. Fees are charged in many cases, and local rates must be raised. Every High School should have a Principal and at least two assistant teachers. Each school receives a fixed amount of \$875, and also a certain sum on salaries of teachers, general equipment and suitability of school premises. High Schools which have complied with certain conditions as to equipment, special teachers, etc., may be made Collegiate Institutes, and receive additional grant. Pupils attending these schools are prepared for Matriculation to the Universities. There were 43 Collegiate Institutes, 102 High Schools, and 120 Continuation Schools doing the same grade of teaching in connection with the Public and Separate Schools in Ontario in 1908.

**Public Schools.**—Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to manage its school affairs. In Cities, Towns and Villages, the Schools are managed by a Board of School Trustees elected from the Municipality.

**Educational Museum.**—Connected with the Department of Education is a Museum, containing specimens of school apparatus, etc., a valuable collection of Italian, Dutch and Flemish Oil Paintings, and Statuary casts and busts; an art gallery of paintings by Canadian artists. Here also is the largest collection of archeological material in the Dominion, chiefly illustrative of Ontario, and of North America. David Boyle, Curator of Museum. The Museum is open to the public from 9 a.m. to 5 p.m.

## THE ROYAL MILITARY COLLEGE

**T**HERE are few national institutions of more value and interest to the country than the Royal Military College at Kingston. At the same time its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government institution, designed primarily for the purpose of giving the highest technical instructions in all branches of military science to cadets and officers of Canadian Militia. In fact, it is intended to take the place in Canada of the English Woolwich and Sandhurst and the American West Point.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and, in addition, there is a complete staff of professors for the civil subjects which form such a large proportion of the College course. Medical attendance is also provided.

Whilst the College is organized on a strictly military basis, the cadets receive in addition to their military studies a thoroughly practical, scientific and sound training in all subjects that are essential to a high and general modern education.

The course in mathematics is very complete, and a thorough grounding is given in the subjects of Civil Engineering, Civil and Hydrographic Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the College is one of the most valuable features of the system.

In addition, the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures good health and fine physical condition.

Seven commissions in His Majesty's regular army are annually awarded as prizes to the cadets.

Three Commissions in the Permanent Force will be given annually, should vacancies exist, to the graduating class, viz. :—Every year one in the Infantry ; and each alternate year :

One in the Engineers and one in the Horse Artillery.

One in the Cavalry or Mounted Rifles and one in the Garrison Artillery.

Further, every three years a Commission in the Ordnance Corps will be given to the graduating class.

Three 2nd class clerkships, or appointments with equivalent pay, will be offered annually to the graduating class, such appointments to be in the following Departments, viz. :—Public Works, Railways and Canals, Inland Revenue, Agriculture and Interior.

The length of the course is three years, in three terms of 9½ months' residence each.

The total cost of the three years' course, including board, uniforms, instructional material, and all extras, is from \$750 to \$800.

The annual competitive examination for admission to the College will take place at the headquarters of the several military districts in which candidates reside, in May of each year.

For full particulars of this examination, or for any other information, application should be made as soon as possible to the Secretary of the Militia Council, Ottawa, Ont. ; or to the Commandant, Royal Military College, Kingston, Ont.

# LIFE ASSURANCE.

Life assurance in Canada may be said to be entirely conducted by companies incorporated by the Dominion Parliament. Their operations are governed by the provisions of their Charter and those of the General Insurance Act of Canada.

During 1908, 39 active companies were engaged in business, of which 23 were Canadian, 6 British, and 10 United States. The new assurances effected for the year amounted to \$99,896,206, an increase of \$9,513,274 over those of 1907. The amount effected in each of the three classes of companies was as follows:

Canadian Companies, \$69,029,583, or 69% of the whole.  
British " 3,389,757, " 3% " "  
United States " 27,476,866, " 28% " "

The aggregate assurance in force in Canada at the close of 1908 was \$719,516,014, or \$83,992,529 in excess of that existing at the close of 1907. The total was distributed thus:

Canadian Companies, \$480,266,931, or 67% of the whole.  
British " 46,101,957, " 6% " "  
United States " 193,087,126, " 27% " "

That life assurance has developed and increased with the progress of the country, is abundantly evidenced by reviewing the figures contained in the following table, which sets forth the total assurance in force at the four periods, 1875, 1885, 1895 and 1908.

TOTAL ASSURANCE IN FORCE.

Year.	Canadian Companies.	United States Companies.	British Companies.	Total.
	\$	\$	\$	\$
1875	21,957,296	43,596,361	19,455,607	85,009,264
1885	74,591,139	49,440,735	25,930,272	149,962,146
1895	188,326,057	96,590,352	34,341,172	319,257,581
1908	480,266,931	193,087,126	46,101,957	719,516,014

It will be observed that in the period of 33 years the total life assurance in force has increased 746%. The Canadian Companies have increased their totals in the same time 2,087%; the United States Companies 343%; and the British Companies 137%.

The premium income of the Companies has kept pace with the increased volume of business, and in 1908 amounted to \$24,697,939. The progress since 1875 has been uninterrupted, and is indicated below:

PREMIUM INCOME.

Year.	Canadian Companies.	United States Companies.	British Companies.	Total.
	\$	\$	\$	\$
1875	707,256	1,551,835	623,296	2,882,387
1885	2,092,986	1,723,012	803,980	4,619,978
1895	5,702,783	3,452,205	1,137,366	10,292,354
1908	16,081,504	1,546,941	7,069,494	24,697,939

In the 33 years the amount paid by Canadians for life assurance has increased by 757%. The Canadian Companies' premium income in that time has increased 2,174% the United States Companies 356%; and the British Companies 148%.

The death rate in 1908 was slightly below the average of previous years, being 10.15 per 1,000.

The figures for the past 5 years are as follows:—

The total amount paid on behalf of policyholders during 1908 for death claims, matured endowments, surrendered policies, and dividends, amounted to \$16,122,796.66. The practical benefits of the system of life assurance in Canada is exhibited in the following table, setting forth the payments made by companies under their contracts in each of the last six years:

## FOREIGN BUSINESS.

During recent years some of the Canadian Companies have extended their field of operation to places outside of Canada. This remark especially applies to the Canada Life, Confederation Life, Imperial Life, Manufacturers Life, North American Life, and Sun Life.

## SYSTEMS OF ASSURANCE.

On the following page will be found the premium rates of the principal companies for quinquennial ages, upon the ordinary systems of assurance, viz.: Whole Life; Whole Life with premiums limited to 10, 15, and 20 years; Endowment Assurance payable at the end of 10, 15 and 20 years, or at prior death with annual premiums limited to those periods. It will be observed that the premiums of the different companies vary very slightly. This is only to be expected in view of the fact that the same mortality table (the Institute of Actuaries Healthy Male Table) and the same rate of interest ( $3\frac{1}{2}\%$ ) are employed by practically all of the Canadian Companies.

## BASIS OF RESERVE.

The Dominion Insurance Act stipulates that the valuation of policies of assurance issued prior to January 1st, 1900, shall be made on the Institute of Actuaries (Hm.) Table of Mortality, and a rate of interest not exceeding  $4\frac{1}{2}\%$ , and of policies issued after that date on the same Table of Mortality and  $3\frac{1}{2}\%$  interest. It further stipulates, in respect to policies issued prior to January 1st, 1900, that the rate of interest shall be modified to  $4\%$  in 1910, and  $3\frac{1}{2}\%$  in 1915. Several of the companies have already placed their reserves for all policies upon the stronger  $4\%$  Standard, while some have even gone so far as to anticipate the ultimate  $3\frac{1}{2}\%$  rate.

## INVESTMENT POWERS.

Prior to 1899 the investment powers of Canadian Life Assurance Companies were determined by their respective Acts of Incorporation. At the 1899 Session of the Dominion Parliament the General Insurance Act was amended, enlarging and making general the investment powers of the companies. A detailed statement of the investments of these institutions will be found in the Yearly Report of the Superintendent of Insurance for the Dominion.

## ANNUAL RETURNS.

The General Insurance Act requires each Company to make to Government a sworn return, embracing great detail, each year not later than the 1st day of March. These returns include statements of receipts, expenditures, assets, liabilities, policies issued and policies terminated. They are subsequently published in the report of the Superintendent of Insurance.

### The Law Society of Ontario.

The Law Society was first established in 1797, by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. Under c. 172 (1897), the Benchers are, exclusive of *ex-officio* members, elected by the Bar, the *ex-officio* consisting of the Attorney-General of the Dominion for the time being, if a member of the Bar of Ontario, and all members of the Bar of Ontario who have at any time held the office of Attorney-General of the Dominion or of Ontario, or of Attorney or Solicitor-General of the former Province of Upper Canada, and any retired Judge of the Supreme Court for Ontario; the *elected*, thirty in number, being chosen by ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to Practice, and

of Students to enter the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or headquarters of the Society, in which is provided accommodation for the Court of Appeal and the High Court of Justice for Ontario; with a valuable and extensive library.
